

Microsoft 365 Copilot Adoption & Copilot Agents Proof of Concept

Secure and Efficient Adoption of Generative AI for Modern Organisations

Noibit provides a comprehensive solution for deploying generative AI with Microsoft 365 Copilot and Copilot agents. We support organisations in safely validating the benefits of artificial intelligence, enhancing employee productivity, and strengthening digital competencies. Thanks to our proven process, you will not only enjoy a swift start with Copilot, but also gain the ability to leverage advanced Copilot agents for automation, personalisation, and effective management of company processes.

What do you gain?

- Technical assessment and licence allocation
- Strategic deployment of generative AI
- Selection of appropriate users and teams for the Copilot & Copilot agents rollout
- Copilot Ambassadors: For each team, we recommend ambassadors who undertake advanced training and become internal experts on AI and Copilot agents

Three-Level Adoption Process

1. Pre-adoption steps, training, and user awareness
2. Practical workshops focused on utilising generative AI in Microsoft 365 applications and on creating and managing Copilot agents
3. Advanced training for ambassadors in agents, automation, and team collaboration

Continuous development and experience sharing:

Regular meetings, monitoring of Copilot and agent usage
Support through competitions, prompt library updates, and newsletters with tips and inspiration

Why choose Noibit?

- Security and Trust: Exclusive Microsoft MSSP partner for the Czech Republic and Slovakia, with deep expertise in cloud and security solutions
- Innovation and Automation: Cutting-edge technologies in generative AI, automation, and Copilot agents for greater efficiency and competitiveness
- Comprehensive Support: Monitoring, rapid incident response, expert consultations, and training for secure and effective use of AI
- Individual Approach: Tailored solutions – from strategic planning and technical implementation to long-term support and development of digital skills
- Proven Expertise: A team of consultants with many years' experience in cloud, security, and AI technologies

Prepare organisation for the future with generative AI and Copilot agents!

With Noibit, you gain not only secure deployment of Microsoft 365 Copilot, but also the ability to harness Copilot agents for automation, personalisation, and effective management of company processes. We help you turn AI into a practical tool that truly drives your business forward.
