

NousMigrator™

MICROSTRATEGY TO POWER BI

NousMigrator™ for MicroStrategy to Power BI auto-migrates MicroStrategy cubes and reports to Power BI semantic models and reports. This AI enabled accelerator backed by our migration services reduces risks, cost and complexity significantly.

NousMigrator™ uses a secure Foundation Model (Azure OpenAI) to translate complex MicroStrategy logic into Power BI, map semantic objects, and accelerate migration. All AI outputs are traceable and reviewed by experts, ensuring accuracy, transparency, and compliance.

Why Choose NousMigrator™?

Automated Migration

Reduces manual intervention and accelerates timelines.

Cost-Effective Transformation

Streamlines complexity, cutting down migration costs.

Minimal Business Disruption

Minimize human errors in data-heavy operations.

Expert-Backed Services

Supported by Nous' deep BI and analytics expertise.

Core Capabilities of NousMigrator™

Semantic Layer & Metadata Conversion

Automatically converts MicroStrategy's semantic models into Power BI's dataset structures.

Automated Report Migration

Reads MicroStrategy report specs (fields, filters, prompts, visuals) and generates Power BI paginated reports.

Dashboard Transformation

Migrates MicroStrategy Documents and Dossiers into fully functional Power BI dashboards with comparable layout and interactivity.

Dataset Mapping & Data Logic Translation

Converts SQL queries, cubes, and transformation logic into Power Query (M) scripts, DAX calculations.

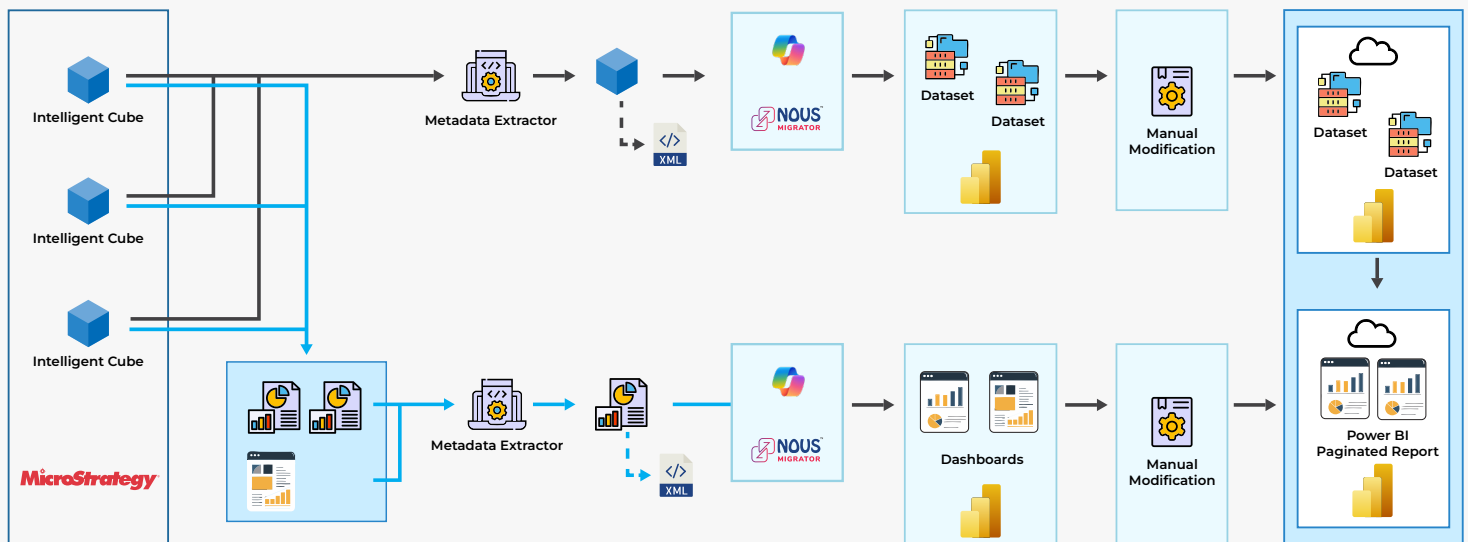

Security Model Translation

Maps and translates MicroStrategy roles, user groups, and row-level security settings into Power BI security frameworks.

Migration Process Architecture

Transform Your BI Landscape with Confidence

Whether you're planning a full-scale migration or a phased modernization, NousMigrator™ ensures a smooth transition, preserving data integrity and maximizing your Power BI investment.
