# Medical Imaging Requisition Management™

Does your department suffer from managing hundreds of paper and fax requisitions?

## There is a better way.

The Novari Medical Imaging Requisition Management software eliminates paper and dramatically improves requisition workflows for radiologists, technologists, clerical staff, and hospital leadership.

# Hospital medical imaging workflows are complex – too complex for a paper-based requisition process.

The Novari Medical Imaging Requisition Management software solution removes paper and fax, and streamlines your requisition workflows for all modalities, from receipt to scheduling - including protocolling.

The above workflow diagram is for illustrative purposes only. The system can be configured to streamline your hospital's medical imaging requisition management workflows to remove paper from the process.
