

# Streamline your operations in 1-Day

## Dyn365 BC Workshop

<b>Service type:</b> Workshop, Online	<b>Price:</b> Free
--	-----------------------

### We offer 1-day free workshop to show how you can optimize your processes with Dynamics 365 Business Central by Dynamics 365 Business Central

Our team of experienced professionals will become familiar with your business processes and demonstrate how Dynamics 365 Business Central can optimize them. Through this, you will gain an understanding of how the solution can meet your specific requirements and identify any additional customizations that may be necessary. In cases where required, we will suggest other Microsoft ecosystem solutions that may aid in successfully completing your digital transformation.

To ensure the success of the workshop, a preparatory phase is crucial. We kindly request that you share helpful documentation with us beforehand, such as current bugs and CRs from the version control system, project documents, and user guides.

## Agenda

### Part 1 (2 hours)

#### Identification of your business processes\requirements

- Introduction to Dynamics 365 Business Central: Start by introducing Dynamics 365 Business Central and its key features. Explain how it can help businesses optimize processes and improve efficiency.
- Overview of your Business: To understand how Business Central can be tailored to your specific needs, it's vital first to understand your business model, processes, and goals. Ask questions to understand your current pain points and areas for improvement.

### Part 2 (4 hours)

#### A demonstration of Dynamics 365 Business Central standard functionality related to your business needs

Using the information gathered in the previous steps, we will demonstrate how Business Central can meet your specific needs, including creating customized workflows, configuring dashboards, and setting up automated tasks

### Part 3 (2 hours)

#### Additional questions, recommendations

Discuss how to start the implementation process or talk about ongoing support and maintenance options, including how to troubleshoot issues and keep the system up to date with new features and updates

### Deliverables

#### Express Fit-Gap Analysis

Document (a high-level view): A report that outlines how your requirements align with the standard functionality of Dynamics 365 Business Central and identifies any customization or additional development work that may be required

## Why N.Progression?

- ✓ We offer extensive multi-platform expertise in the complete Microsoft Dynamics 365, Power Platform and Azure
- ✓ Our deep industry expertise based on 20 years of Microsoft experience and our industry-specific business process modeling and implementation methodology enable faster time to value and lower total cost of ownership
