***Sales Price Inventory Value
for Microsoft Dynamics 365 Business Central
Short Guide***

Introduction

The development direction for Sales Price Inventory Value is determined by many years of experience in implementing and maintaining ERP solutions. This direction is further shaped by consultations with our clients and partners, as well as continuous monitoring of market trends and regulatory changes to ensure ongoing compliance and optimization.

We are focused on:

- ✚ Covering and incorporating all law and regulation changes.
- ✚ Providing simple implementations to our clients, with lower costs and efficient use of solutions.
- ✚ Solution standardization, respecting the rules and logic built into Microsoft Dynamics NAV / 365 BC solutions.
- ✚ Finding better ways to automate processes and optimize ease of use and quality solutions.

Feature description

FEATURE	VER.	DESCRIPTION
Sales Price Inventory Value	24.0	<ul style="list-style-type: none">• KEPU Report.• Every price change on the price list triggers the necessity to initiate adjustment to create a retail price and reduce user error.• Additional fields supporting calculation, including margin, and included VAT, are enabled in the settings.• Each adjustment initiation creates general ledger entries and value entries.• Retail calculation is enabled even in the case of purchasing inventory directly at the retail location.• In case of price changes or discounts on the retail invoice, the retail calculation will adjust the price according to the discount or price change.• Each retail location can have only one active price list to ensure the accuracy of current retail prices.

About us

Founded in 2003 in Belgrade, NPS d.o.o. is one of the leading partners for the implementation of Microsoft Dynamics 365 Business Central solutions in Serbia and the region. Our team of experts combines a deep understanding of local needs with international standards, delivering ERP solutions that enhance business processes and support growth.

As of July 2025, NPS d.o.o. Belgrade has become part of M&I Systems Co. (<https://misystemsgroup.com>), a regional leader in business software and digital transformation, operating within the Seyfor Group (<https://www.seyfor.com/sr-latn-rs>). This integration provides us with access to a broad range of expertise and technological solutions, including areas such as artificial intelligence, process automation, and advanced analytics.

Our focus remains on delivering high-quality ERP solutions and services, now enhanced by the added value of being part of the Seyfor Group. We believe in the power of knowledge, partnership, and continuous improvement, with the goal of providing our clients with secure and sustainable digital development.

A strategic partner in the evolution of your processes through the implementation of modern IT solutions and technologies – ERP, SAP, CRM, AI, BPA, and many more.
