Sustainable by Design

**Nucleus Intelligent Enterprise Platform**

# NTT DATA offers a complete range of customizable services

## Cloud Advisory

Planning the cloud journey including business case, cloud strategy and architecture services.

Inspire Cloud Thinking

Build Cloud Foundations

## Cloud Implementation

Architecting, designing, implementing and migrating cloud workloads.

## Cloud Management

Supporting foundational cloud operations.

Run Cloud Operations

## Continuous Innovation

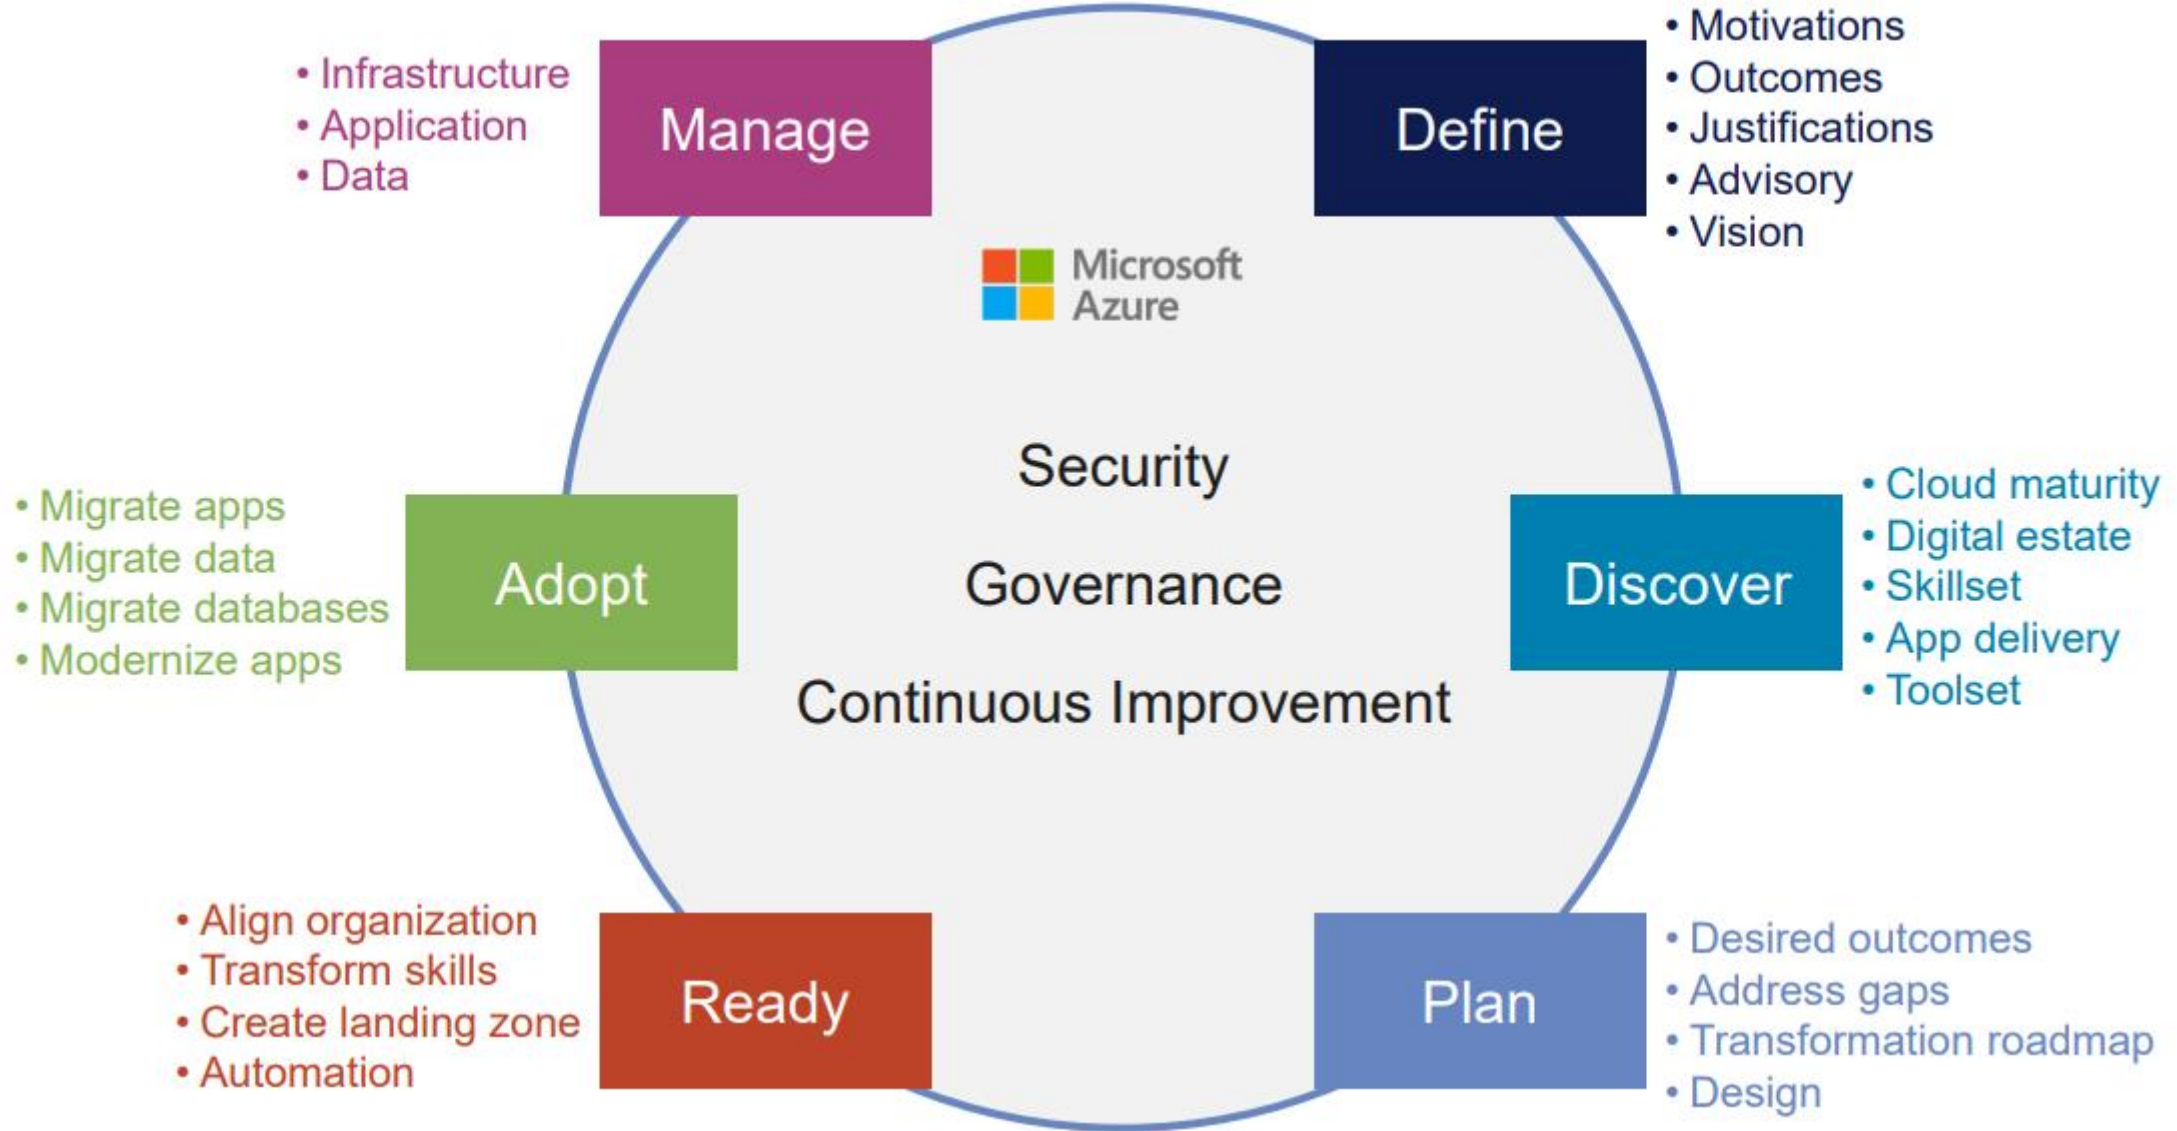

Managing prioritized backlogs, optimizing workloads and identifying improvements.

## Cloud Security

Security consulting, implementing and managing cloud workloads.

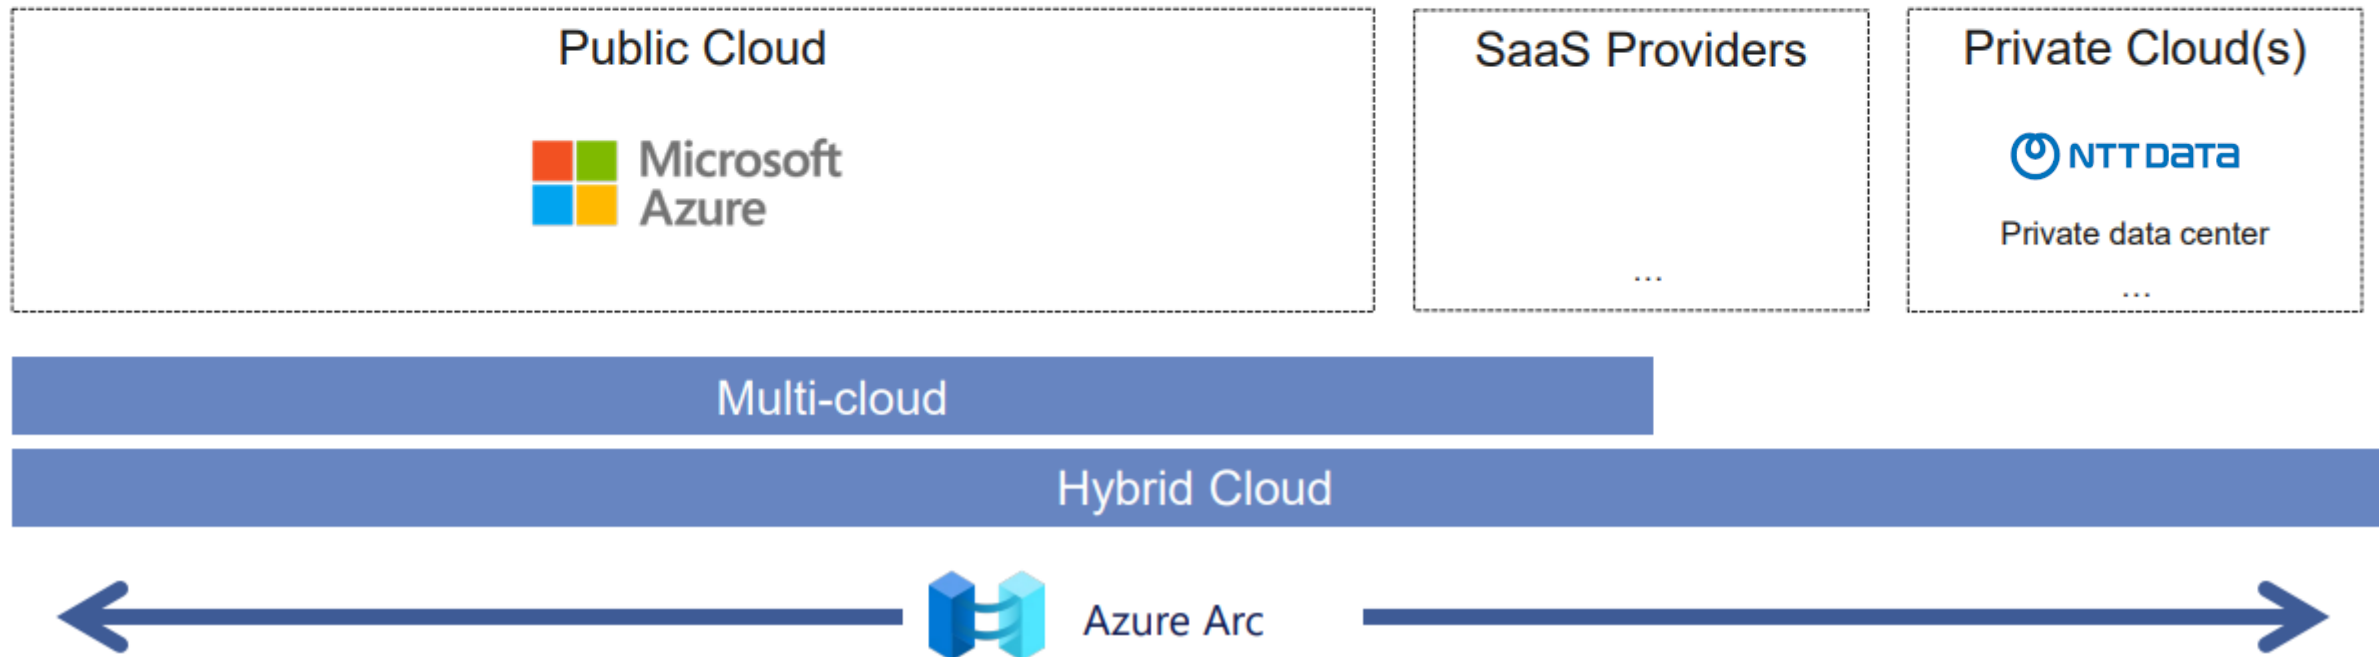

Secure Cloud Posture

# Our unified cloud adoption framework provides the strongest foundation

# Differentiating Multi-Cloud and Hybrid Cloud

*Hybrid cloud is a composition of a public cloud and a private environment, such as a private cloud or on-premises resources, that remain distinct entities but are bound together, offering the benefits of multiple deployment models.*

# Customer aspirations

- Accelerate application development

- Secure and govern distributed digital estate

- Deliver products as a service

- Transform data into new products

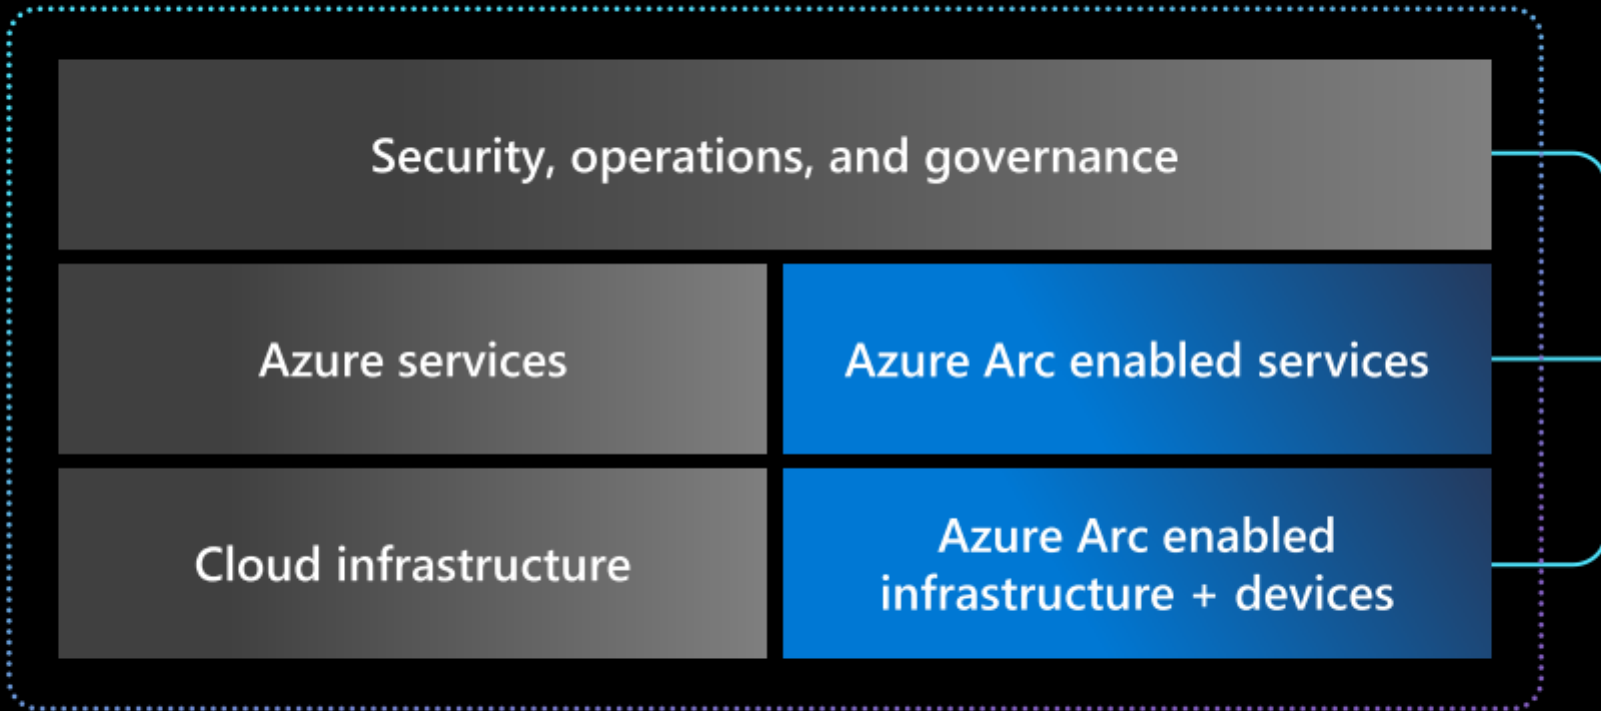

- Meet changing regulations

Tools and experiences

Field production

# Innovate anywhere with Azure

Azure Arc

Develop  
cloud native,  
operate anywhere

Harness data  
insights from  
cloud to edge

Secure and  
govern across  
environments

Flexibly meet  
regulatory and  
connectivity needs

# Develop cloud native, operate anywhere

Build and modernize to cloud-native apps on any Kubernetes

Bring cloud data management to any infrastructure

Consistent GitOps and policy driven deployment on any Kubernetes

Integrate Azure Security, governance and monitoring into your DevOps toolkit

Azure Arc-enabled Kubernetes

Azure Arc-enabled SQL Managed Instance

Azure Arc-enabled PostgreSQL

Azure Stack HCI

vmware

aws

Azure IoT

On-premises, multicloud, and edge

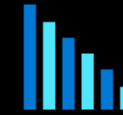

# Harness data insights from edge to cloud

Accelerate innovation via cloud data and AI capabilities to build next-gen apps and gain fast, continuous insights

Improve operational efficiency and reduce IT overhead through cloud automations and consistent management

Reduce risk exposure through integrated multi-layer security and data governance solutions

Azure Arc-enabled SQL Managed Instance

Azure Arc-enabled PostgreSQL

Azure Arc-enabled Machine Learning

Azure Stack HCI

vmware

aws

Azure IoT

On-premises, multicloud, and edge

# Secure and govern across environments

Harden your Security Posture, detect threats to protect your workloads

Microsoft Defender for Cloud

Microsoft Sentinel

Monitor your infrastructure and applications end-to-end to proactively detect, diagnose and resolve issues

Azure Monitor

Conform to key compliance standards and enforce organizational policies

Azure Policy

Azure Arc-enabled servers

Azure Arc-enabled SQL servers

Azure Arc-enabled VMware vSphere VMS

Azure Arc-enabled Kubernetes

Azure Stack HCI

vmware

aws

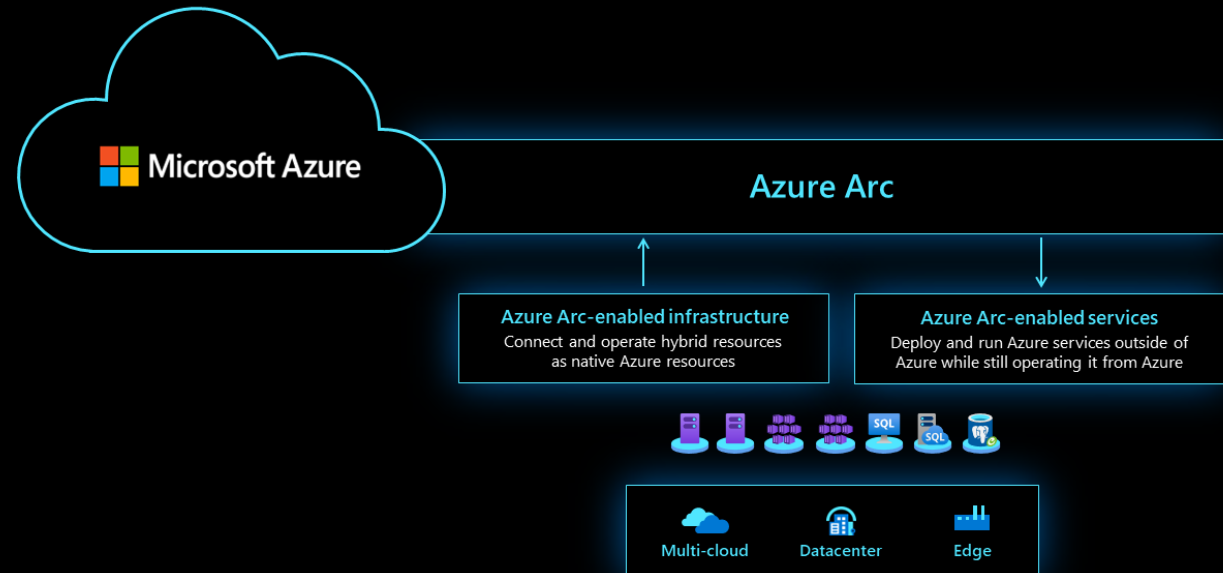

On-premises, multicloud, and edge

Azure IoT

## Getting Started with NTT DATA and Azure Arc

Let NTT DATA work with your teams to understand how to adopt Azure Arc to extend the Azure platform across datacenters, edge, and multi-cloud environments

### Services:

- Consulting
- Implementation
- Management

### Outcomes:

- Develop cloud native, operate anywhere
- Harness data insights from cloud to edge
- Secure and govern across environments
- Flexibly meet regulatory and connectivity needs

# NTT DATA Inc. Your Complete Partner to Accelerate

## Advisory & Consulting

**\$3.6B** average annual R&D

**\$500M** venture capital & growth initiatives

**Full spectrum:** Industry, Technology & Business Consulting

**90%** Fortune Global 100

### Digital Applications

- **#2** Application Managed Services
- **Leader**, NelsonHall NEAT Report for Cognitive Healing IT Infrastructure Management
- Everest Group **PEAK** Matrix® Assessment
  - 2022 Network Transformation Services
  - SAP Business Application Service Providers
  - Enterprise Blockchain Services
- **Leader**, ISG Managed Application Services for SAP ERP

### Modern Workforce

- **97%** renewal rate
- **98%** success achieving KPIs
- **Top 5** IT Services Provider
- **Leader**, Gartner 2023 MQ
  - Critical Capabilities for Network Services
  - Global Network Services
  - Digital Workplace Services
  - Outsourced Digital Workplace Services
- Everest Group **PEAK** Matrix Assessment - 2022 Digital Workplace

### Connected Infrastructure

- **#1** Internet backbone provider
- **200+** data centers globally
- **80+** countries and regions
- **>16TBps** global submarine cable
- **Net Zero** by 2040
- **Leader**, IDC 2021 MarketScape for Worldwide Network Consulting Services
- **Leader**, ISG Next-Gen Private/Hybrid Cloud – Data Center Solutions & Services Managed Hosting
