

Agent in a Day

Seamlessly create advanced, AI-driven agents that can handle common queries and provide round-the-clock assistance.

Agents in a Day – Master Copilot Studio

Seamlessly create advanced, AI-driven Agents that can handle common queries and provide round-the-clock assistance.

This Copilot Studio Workshop is an introductory-level training designed for all, aimed at empowering you to promptly and effectively respond to your customers and employees on a large scale, using smart conversational agents. Regardless of whether you are a business professional or an IT developer, this workshop will equip you with the skills to rapidly develop intelligent agents using Copilot Studio, all within a single day.

The workshop comprises hands-on, step-by-step lab exercises that guide you through the process of creating state-of-the-art copilots for any scenario or use-case.

Effortlessly creating or extend your own agents

Promptly taking action with seamless integrations

Building intelligent bots using rich, personalized conversations

Enhancing your chatbot with a telephony channel to serve your customers over the phone.
