Microsoft – M365 Migration Services

Product Description:

Migration to Microsoft 365 Services. NTT will leverage our expertise and toolsets to assist with Microsoft Migration to the cloud.

What's included

Microsoft Exchange, Teams, SharePoint, OneDrive and Microsoft Tenant to Tenant

Discovery

⊘ Perform a comprehensive review of your business needs as well as the current farms that make up your production environment.

Gap Analysis

⊘ Identify and fill gaps in your governance or hardware requirements to build an outline for the execution phase.

Pilot

⊘ Test an end-to-end migration in your production environment to identify areas where performance enhancements can be made.

Onboarding

⊘ Run full and incremental migrations from source to destination and provide status reports to stakeholders and business users.

Execution

⊘ Synchronize changes made in the source environment during execution, and transition users into the destination environment.
STRATEGY , Design & PLANNING

A workshop designed to identify your business Cloud Journey, timelines and milestones in the next 6 to 9 months.

MICROSOFT M365 Migration

Provide and Configure Optimal Configuration for all M365 workloads. NTT will handle the complex

How to get started

The Microsoft M365 Engineer Engagement is led by the Solution Team, a certified partner, and the customer's account team. Customers work with Microsoft and the partner to define the scope of the engagement, review requirements, align stakeholders, and finalize project timelines

Phase 1 ➡ **Phase 2** ➡ **Phase 3**
