What is **nudgebee**?

nudgebee

SUPER AGENT

⚡ TROUBLESHOOTING | **Reduce DownTime, Improve MTTR**

Guided TroubleShooting : *designed for new, less experienced engineers ;*

Automated Remediation : *event triggered custom response playbooks*

AI Agentic workflows : *autonomous root-cause identification & remediatio*

🖲 OPTIMIZATION | **Reduce Cluster Cost. Improve Resiliency**

ML based Dynamic Resource Right Sizing *[Containers/Pods/Nodes/Clusters]*

Largest Coverage of Optimisation Use-Cases

Automated Continuous Optimisation

✈ AGENTIC AUTOMATION | **Save Time & Effort. Improve Productivity**

Automated Incident Response & Remediation

Automated Anomaly Response, Scheduled Runbooks, Log Events Response

AI Agentic Workflows : self-learning, integrated with internal tools & systems

---

Available as: | Cloud SaaS | Self-Hosted | Designed for 👤 SRE 👤 Infra/Support Engineer 👤 Application Developer

How does our Client benefit from **nudgebee**?

nudgebee

| **35%** Reduced Downtime/MTTR | + | **30-50%** Reduced Cloud Cost | + | **30-60%** Improved Productivity |

35% Reduced Downtime/MTTR

- ▶ *Automated Incident Response & Remediation*
- ▶ *Guided Troubleshooting*
- ▶ *Issue Resolution at L1/L2 level*
- ▶ *Developers now also able to understand infra related app issues*

30-50% Reduced Cloud Cost

- ▶ *Wide coverage. Better Optimization*
- ▶ *Continuous ongoing Optimization*
- ▶ *if value undelivered, cancel anytime with full refund in 90 days.*

30-60% Improved Productivity

- ▶ *Automations for almost everything.*
- ▶ *Incident Response | Schedule Jobs | Anomaly Detection Response | Scheduled Jobs / Log Events / Infra HouseKeeping Jobs etc etc*
- ▶ *single integrated platform for most ops use cases instead of context switching between multiple tools !*

TroubleShooting + Cost Optimization + Process Automation + Monitoring /Reporting/Observability + Certificate Management + Version Management

Integrations

nudgebee

KUBERNETES - Managed & Self Hosted

EKS   AKS   GKE   Openshift   Fargate

Observability Data

Logs   loki   LogStash

Metrics   Prometheus   VictoriaMetrics

Traces   Open Telemetry   eBPF

Integration with Developer workflow

Ticketing   Jira   Servicenow   GitHub Issues

Messaging   Slack   MS Teams   Gchat

Repos   GitHub   GitLab

Day-2-Day Operation Utilities

Operating Tools
- K8S Version Governance
- Certificate Monitoring
- Ticket Monitoring/ Alerting
- Security Scans

Monitoring Dashboard
- SRE Dashboard
- Grafana Integration for existing reports
- FinOps Dashboard

Security / Certificates / Compliances

AICPA SOC — SOC II Compliant

ISO 27001 — ISO Certified
