

nurture

Assessment & Feedback Programme

Nurture is an Assessment and Feedback Platform that integrates with MS Teams. Nurture will support your to introduce formative assessment and formative feedback in a digital environment.

Pedagogy and Research-Backed Framework

Nurture's feedback platform was developed through a research project which was commissioned with a **pedagogy team at Learnovate, the EdTech Research & Design Centre in Trinity College Dublin**. This framework combines the best practice of **Teaching and Learning combined with the efficiencies of Digital Learning to save teachers time and simplify high-quality formative feedback**.

Our research-backed framework ensures that the feedback a student receives aligns their **individual learning goals**.

98% of students who receive individualised feedback perform better than those that don't.

Nurture has commissioned a 4 year **PhD through the University of Education** in the **University of Limerick** to track the learning outcomes of students using the platform.

Product Features

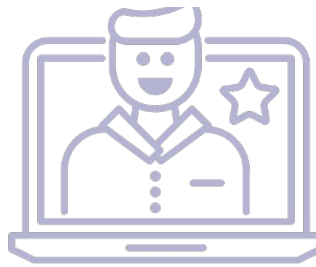

All contracted Universities get access to the below product features.

Product Feature	Video Link	Details
Formative Feedback	Feedback Platform Demo	Teachers can group feedback based on common areas students need support with. Teachers can group clusters of students feedback based on the learning objectives which the teacher setout.
Student Reflection	Student Reflection Demo	We enable all students to reflect on teacher feedback. Reflection can be completed through an emoji or 3-2-1 response.
Measure students confidence	Student Confidence Demo	Students outline their level of certitude as low, medium or high through emoji responses when submitting an assignment to their teacher
Formative Assessment	-	Teacher can run routine formative assessments with their students.
MS Integration	-	Integrates directly with MS Teams Account

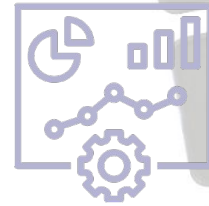

Teachers Benefits:

Time Saving - Save teachers time delivering feedback and reporting assessment and feedback

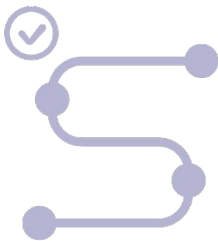

Empower teachers to deliver more detailed feedback and improve learning outcomes

Reporting and Student Insights - Understand all students confidence levels across their subjects

School Benefits:

Prepared for shift to **Digital Assessment**

Culture of **Feedback** enabled through technology

School Self Evaluation

Student Benefits:

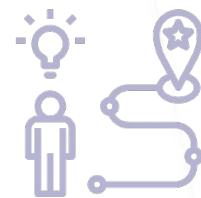

Better Learning Outcomes and Grades

14.6%

Improved Student Confidence Levels

9/10

Motivating students who are disengaged in either classroom or online environment

Pricing:

			Total
3 month Innovator Program			-

Post Innovator Program Pricing:

Price is based on a per pupil basis.

Induction

Our induction process is delivered online. We involve a group of between 5 and 8 Innovator teachers from the Digital Committee and Teaching & Learning Committee from the outset.

We will conduct a 90 minute online session followed by monthly check ins until all teachers are accustomed and utilising the platform.

Training and Support

On-demand video library is made available to all participating teachers.

support@gonurture.com is available as a teacher support line Monday - Friday from 9.00 to 6.00

- Virtual on-demand training
- Monthly live teacher check ins

Nurture Teacher and Student Support will be readily available to join a MS teams call with school staff who need ongoing support or have specific requests.

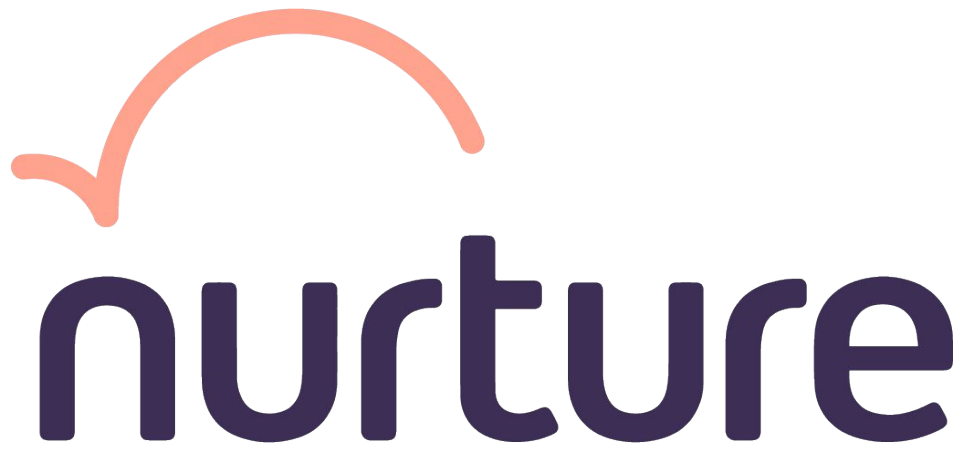

Training

Phase 1 (Innovator Teachers): Up to 8 teachers preferably from Digital Committee and T&L committee. These teachers will become advocates and mentors for the programme

Account Manager

Pádraic Hogan is set up as the dedicated Account Manager. Pádraic can be contacted at 0872554782 or padraic@gonurture.com in relation to any enquiries
