

# Power Platform Advisory Services

## ObjectSharp helps you maximize the return on your Microsoft Power Platform

ObjectSharp's Power Platform advisory services offer the expertise needed to design and develop low-code applications, bringing in real-world experiences from a broad range of industries.

Our experts can guide you along the entire journey of evaluating the best approach for your low-code solutions through to developing and implementing the solution utilizing the entire Power Platform—Power Apps, Power Automate, Power BI, and Power Virtual Agents.

Here are just a few examples of the kind of work we've done with our clients:

- Process optimization and customization
- Data modelling
- Security modelling
- Customized platform integration with existing systems
- Lifecycle management
- Licensing advisory services
- Technical coaching and mentoring
