

The solution : AI for Faster, Fairer, and More Efficient Recruitment

Obo World is a recruitment optimization tool that automates time-consuming tasks, designed for companies of any sector worldwide.

«The solution that reduces recruitment time and costs by up to 80% »

I am Obo, the Inclusive virtual talent acquisition that :

- sources candidates on jobboards and resume database, matches search criteria with CV skills
- conducts video interviews with candidates (pre-qualification)
- provides a selection of the top candidates

Obo World is revolutionizing recruitment by combining the power of AI with your human expertise. With our intelligent virtual agent, accelerate your hiring process, reduce costs, and identify top talent with complete impartiality.

- Optimization : Automated sourcing, candidate pre-qualification, and clear interview reports
- Cost Reduction : Less time wasted, more efficiency, Obo reduces costs up to 80%
- Fairness & Inclusion : A recruitment process based solely on skills, free from bias
- Human Oversight : You remain in control at every step

Findings

Metrics

HR departments worldwide face significant challenges in identifying and recruiting talents

How recruitment issues affect businesses?

A recruiter’s typical day :

- 100 phone calls made
- 80% go to voicemail
- Average call duration : 1 min30s
- 1h30mn calls to voicemail
