

V-Care* Managed Modern Workplace Solution

Provide employees with a secure managed modern workplace anywhere & anytime

Businesses these days are looking for an easy and **efficient way of provisioning a flexible and secure environment** for their users to work in. In the past this was something only available for large enterprise.

With V-Care* we provide such service to the SMB market.

This for a **fixed price per month per user**.

V-Care*'s enterprise grade
ICT for SMB's

Some benefit from a **cloud-only** approach, others gain more of a **hybrid co-managed infrastructure**.

Today's **modern workplace solutions** are built with **security on top of mind**. This can be achieved thanks to our **zero-trust, managed approach**.

Every organization is different.

But so are the users in the organization.

After understanding the needs, we provide a **specific user profile** that **includes software, connectivity, services, security** and even **hardware**.
