Improve the quality of your institution's educational services with Artificial Intelligence.

Microsoft Azure

ABOUT BELLA EDUCATION SUITE:

The Bella Education Suite is an innovative Artificial Intelligence solution for education that will help your institution move forward in the new frontier of computing. The main difference of the Bella Education Suite is the effective use of natural language, besides the possibility of voice conversations.

As Bella is an A.I platform, it can be used for any type of business with a very simple customization.

WHAT WE OFFER

The Bella Education Suite will help your institution: attract and retain more students; optimize communication, reducing the need for personal assistance; increase internal productivity, reducing repetitive activities; predict school dropout and default.

The power of the Azure leverage our solution to another level, meeting all standards of regulatory compliance, business needs, integration capacity and security.

The Bella Education Suite integrates with existing systems easily and accessibly. As well as allows the customization of the digital agent according of the brand's visual identity.

Besides the front office work, BMS - Bella Management System, offers the recording of conversations, analysis of dialogues, analysis of user satisfaction surveys and control of lead numbers.

WHAT OUR CUSTOMERS ARE SAYING

"The conversational agent has contributed to attracting leads in the various marketing campaigns carried out over the past year, without us having to increase our face-to-face service, as it is able to answer all questions empathetically and accurately."

–Jefferson Silva, Marketing Director, FAEL College.

ARTIFICIAL INTELLIGENCE NETWORKS

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
