IFRS (IAAas 2) – Asset Useful Life Adjustments

RAMX4 - IFRS Accounting As A Service

Customer Challenges

- Use of multiple spreadsheets and no version control
- Usually stored on a desktop and not accessible
- Susceptible to errors and unauthorized changes especially formulae's
- Inherently unstable and risky
- Poor compliance (IFRS, SOX, GRAP) and limited or no ability to report
- Complex and risky when consolidating multiple registers

Partner Solution

Assets are resources controlled by an entity as a result of past events and from which future economic benefits or service potential.

RamX4 allows IFRS Asset Accounting as a Service with automation of calculations/computations and provision of audit evidence. Accountants can choose one or all services and will only pay for the service they need.
