

Content Chooser

The Right Content,
For Every Task.

We have been empowering branded communication from the start. Our Document Creation and Content Management Software Solution fully integrated within Microsoft 365, enables organizations to simplify workflows, minimize manual work, and maintain brand consistency across every asset. Built to be secure, scalable, and intuitive, we empower your teams with the tools they need to succeed and make an impact every day. Transforming the way businesses create, manage, and share branded communication assets.

Content Chooser

Content Chooser upgrades the way businesses handle their digital assets by providing a unified content hub that simplifies the management of company materials. It ensures that teams have immediate access to the most recent, on-brand content across different devices and applications.

It enhances content workflows with features like unified content access, real-time availability, one-click, and centralized content control. With Content Chooser, productivity is enhanced as users can quickly create on-brand documents, presentations, or emails. It also promotes collaborative work by providing shared access to content, advanced search capabilities, and maintaining high security and privacy standards. Content Chooser is a user-friendly solution that integrates seamlessly with Microsoft 365, allowing for efficient content management. It's an essential tool for organizations looking to streamline their content management processes and maintain a consistent brand identity.

Why the Content Chooser?

Centralized Digital Asset Management

Content Chooser offers a centralized hub for all digital assets, making it easy to find and use the latest content across multiple platforms. This centralization saves time and ensures that employees always have access to the most current, on-brand content.

Enhanced Discoverability

With Content Chooser, digital asset discoverability is significantly improved, providing real-time accessibility to the latest content. This feature allows for immediate retrieval and use of the necessary assets, streamlining the creation process and enhancing productivity.

One-Click Content Integration

Effortless insertion of curated content into Microsoft 365 applications is a key benefit of Content Chooser. This one-click integration facilitates the creation of on-brand documents, presentations, and emails, thereby boosting efficiency and maintaining brand consistency.

Simplified Collaboration

It enhances collaborative efforts by providing teams with shared access to the latest digital assets retrieve right from your Microsoft SharePoint, Teams or OneDrive.

Advanced Search

The advanced search functionality of Content Chooser allows users to quickly locate the exact content they need, when they needed, where they need it.

User-Adaptable

The Content Chooser allows for customization of content collections to meet the specific needs of different user groups, adding to its adaptability.
