

Wizard

Create Personalized Dynamic Documents & Presentations.

We have been empowering branded communication from the start. Our Document Creation and Content Management Software Solution fully integrated within Microsoft 365, enables organizations to simplify workflows, minimize manual work, and maintain brand consistency across every asset. Built to be secure, scalable, and intuitive, we empower your teams with the tools they need to succeed and make an impact every day. Transforming the way businesses create, manage, and share branded communication assets.

Wizard

Wizard transforms the way organizations personalize their documents by providing a powerful app that simplifies the customization process. It ensures that your team can produce personalized, on-brand documents efficiently and consistently.

Wizard simplifies document personalization with its quick personalization features, intuitive fields, and dynamic content integration, ensuring that all documents adhere to your brand's guidelines. With real-time adjustments and a resource library linked to a centralized SharePoint repository, it offers multilingual support and a personal touch that resonates with the intended audience. Designed with a user-centric approach and fully integrated with Microsoft 365, Wizard makes document personalization accessible and cost-efficient. It's an essential tool for organizations looking to enhance their document creation process with precision, adaptability, and consistently.

Why the Wizard?

Streamlined Document Customization

Wizard provides a solution for quickly personalizing documents to maintain a consistent brand image. This feature allows teams to create on-brand documents efficiently, reducing the time spent on manual adjustments and ensuring that all documents reflect the brand's excellence.

Intuitive Personalization Process

The Wizard tool simplifies the document personalization process by offering intuitive fields for text, items, and user information. This benefit makes it easy for anyone to tailor documents to specific needs without requiring extensive training or technical knowledge.

Dynamic Content Integration

With Wizard, users can seamlessly integrate both static and dynamic content into their documents. This dynamic content integration ensures that documents are not only personalized but also contain the most up-to-date information, enhancing the relevance and accuracy of the content.

Consistent Branding Across Documents

Wizard ensures that every document adheres to the brand's guidelines, promoting consistent branding. This consistency is crucial for maintaining a strong brand identity and ensuring that all communications are aligned with the company's image.

Real-Time Document Personalization

The tool allows for real-time adjustments during the document creation process. This real-time personalization ensures that any changes or updates can be made instantly, supporting a dynamic and fast-paced work environment.
