

## Microsoft Information Protection to improve and streamline compliance

Better protect your sensitive information anytime, anywhere. Control and help secure email, documents, and sensitive data that you share outside your organization. Using easy classification with embedded labels and permissions, we always enhance data protection with Microsoft Information Protection, no matter where it's stored or who it's shared with.

### Why does your organization need Microsoft Information Protection?

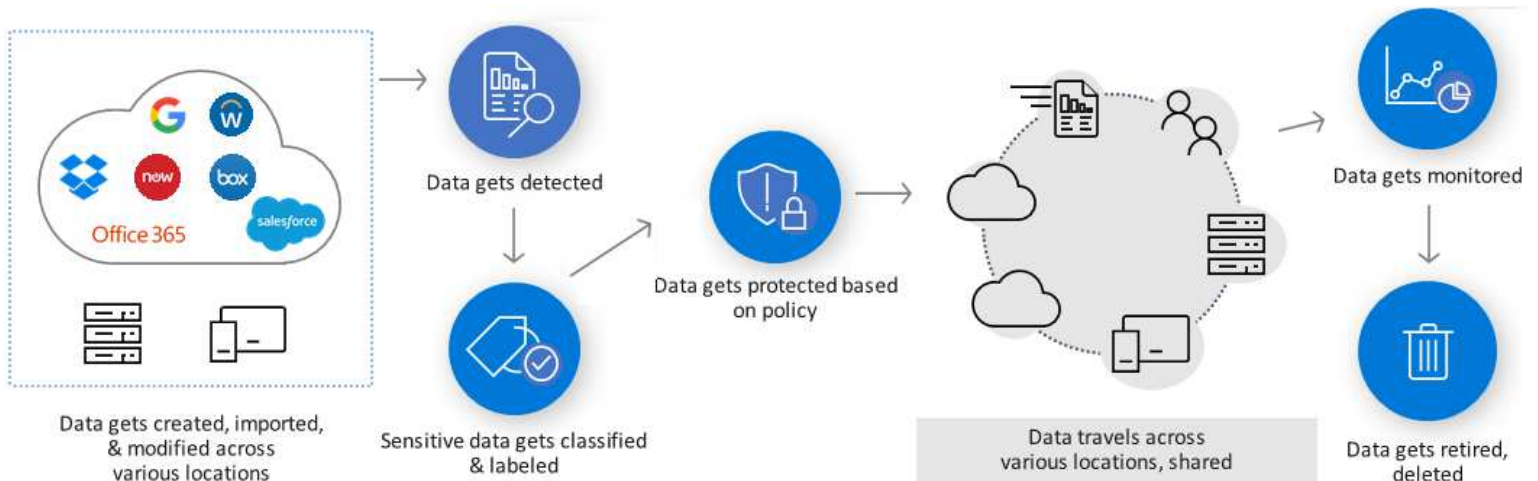

Microsoft Information Protection provides a deeper understanding and a granular control of, where your content is being distributed and how it is being used.

This level of visibility helps to:

- ✓ Prevent illicit modification, storage and distribution of business-critical data
- ✓ Remove the challenge of unauthorized users viewing sensitive content
- ✓ Gain greater control of information by monitoring which users are interacting with content and how they are doing so
- ✓ Meet regulatory data protection and compliance standards

### Why customers trust Office Line

- ✓ Advanced Specialized Partner for Microsoft 365 services.
- ✓ Microsoft's Country Partner of the Year for Greece 2019, 2020 & 2021.
- ✓ High qualified technical professionals.
- ✓ Empowered with future-proof solutions.
- ✓ Announced from Microsoft as FastTrack Ready Partner for Greece, Cyprus, Malta.
- ✓ Strategic planning & ongoing consulting.

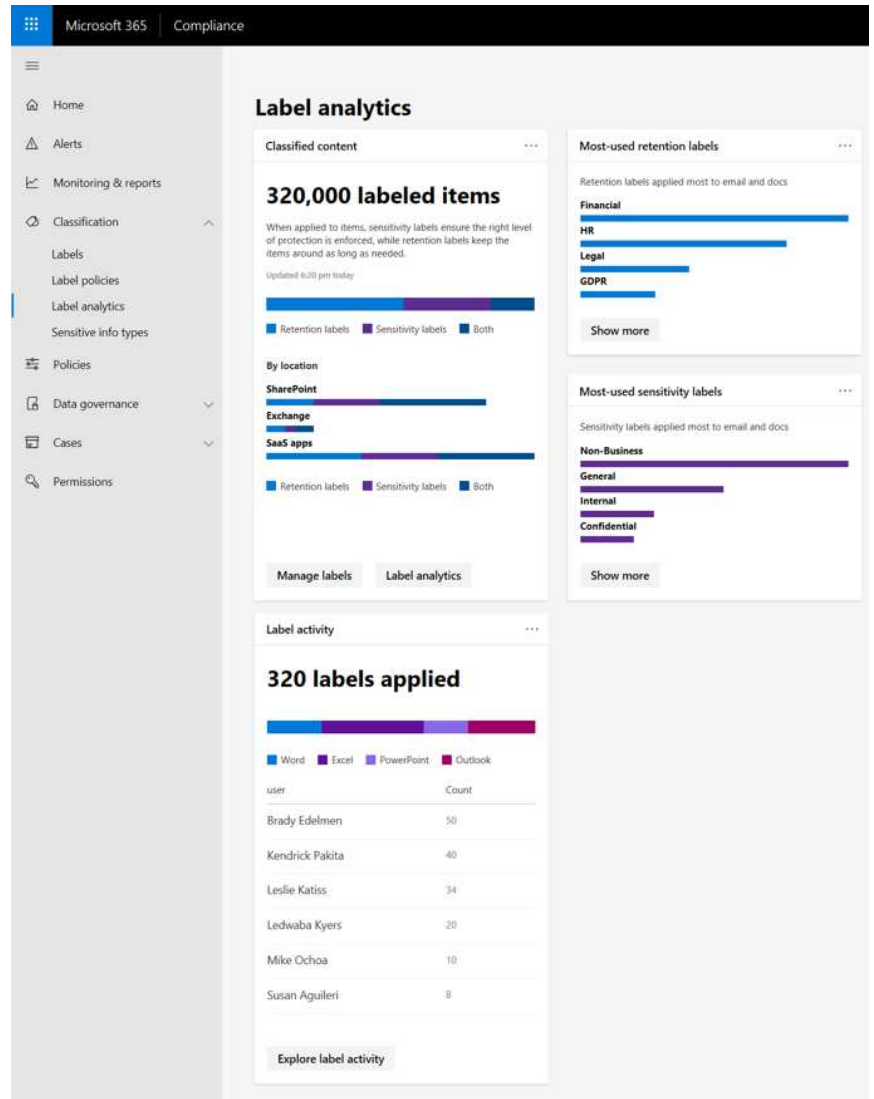

# Information Protection by Office Line to achieve business benefits

- ❑ **Know your data:** Understand data landscape and identify its importance across all environments.
- ❑ **Protect your data:** Protect throughout its lifecycle by applying sensitivity labels linked to actions like encryption, access restrictions, visual markings, and more.
- ❑ **Prevent data loss:** Apply a consistent set of DLP policies across all environments, and endpoints to monitor, prevent, and remediate risky activities with sensitive data.
- ❑ **Govern your data:** Manage lifecycle and records intelligently with in-place management, automated policies, defensible disposal, and pre-built data connectors.
