

## Windows Virtual Desktop Services to improve and streamline productivity

The use of virtual desktops has exploded in recent years and is expected to grow almost 30 percent by 2021.

Full-service virtualization is the next natural step. Increasingly organizations leveraging Windows Virtual Desktop Services to improve and streamline their operations.

**Windows Virtual Desktop** is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure that delivers simplified management, multi-session Windows 10, optimizations for Office 365 ProPlus, and support for legacy Remote Desktop Services (RDS) environments.

- ✓ **Increased Productivity**
