

## AI In Action Workshop

### 1-Day Custom AI Review

Microsoft Azure is powerful, but many organizations struggle with where to begin. **OmniData** (now Fresche Solutions) simplifies the journey with a **free assessment** to help you get started with confidence.

#### WHAT IS THE AI IN ACTION WORKSHOP?

Our AI in Action Workshop pinpoints where to focus and unlocks key opportunities tailored to your business. This hands-on session highlights the full impact of next-generation AI within your organization.

Led by experts with decades of real-world experience in the Microsoft suite, we'll identify opportunities for data excellence and create a clear roadmap to help you achieve it.

#### WHY IT MATTERS

Reduce your organization's technology risk, implementation costs, and time to value by tapping into our expertise in analytics and data architecture.

Our skilled consultants will assess your organization's readiness, conduct a high-level environment review, and identify key opportunities. We'll help you navigate challenges and map out the fastest path to success through AI in Action, a end-to-end view of your organization.

#### WHO'S IT FOR?

The **AI in Action Workshop** is designed for companies seeking expert guidance from seasoned solution architects with a proven track record of successful Azure implementations.

#### LEARN MORE

This structured **8-hour workshop** will help you define the value of Azure for your organization and guide you through the most efficient path for your AI journey.

#### 1. AI Use Case Discovery & Prioritization

- Educate on AI capabilities (ML vs. GenAI vs. Agentic AI)
- Identify key pain points and inefficiencies
- Align AI opportunities with business goals
- Heatmap-based assessment to prioritize initiatives

#### 2. Technical & Data Readiness Assessment

- Review data sources (IBM I, on-prem SQL, cloud platforms)
- Identify integration challenges and security considerations
- Evaluate AI-driven code modernization strategies

#### 3. Adoption Roadmap

- Define a high-value AI implementation path
- Provide technology-agnostic recommendations
- Outline a practical action plan for modernization
