Data Strategy and Planning

ALIGN YOUR DATA INITIATIVES WITH BUSINESS GOALS AND FUTURE NEEDS

Data Strategy and Planning Modernization

OmniData's Data strategy & planning modernization expertly assesses your environments, carefully crafts your future state and strategically structures your migration plan ensuring it meets your needs for performance, reliability, and scalability.

- **Environment Assessments:** An Unbiased Look Under the Hood
- **Future State Roadmaps:** An Actionable Roadmap to Your Desired Future State
- **Migration Plans:** Seamless Migration, Minimal Disruptions
- **Performance Optimization:** Balance Performance and Efficiency

Data Warehouse Modernization

UPGRADE OR REDESIGN YOUR EXISTING DATA WAREHOUSING INFRASTRUCTURE

Data Warehouse Foundations

OmniData's Data Warehouse Modernization simplifies the process with expert Modernization Assessments, Planning, and seamless Migrations to Azure, Databricks, or Fabric, ensuring a smooth transition and optimal performance.

- **Data Warehouse Assessments:** Warehouse or Lakehouse? Decide with Confidence
- **Infrastructure Upgrades:** Future Proof Your Data Infrastructure
- **Data Warehouse Migration:** "Lift and Shift" to the Latest and Greatest
- **Performance Optimization:** Operate at Peak Performance and Efficiency

Analytics Modernization

LEVERAGE THE LATEST TOOLS AND TECHNOLOGIES
TO GAIN DEEPER INSIGHTS FROM YOUR DATA

Migrate and Modernize Your Analytics

Enhance your existing tools and processes for self-service analytics and reporting with a custom build or leverage our pre-built OmniAnalytics products for D365 environments. Leverage the power of Microsoft Fabric's modern analytics reporting environment.

- **Analytics Migration:** expert guidance on adopting modern analytics platforms, integrating advanced analytics capabilities, and fostering a data-driven culture within your organization.
- **Analytics Environment Upgrades:** Upgrade Your Existing Analytics Environment.
- **Modern Analytics for D365 ERP:** Unlock the fastest, most precise data analysis across D365 ERP environments. Powered by Microsoft Fabric, OmniAnalytics by OmniData ensures consistent data, enhanced cross-business reporting, and seamless integration with existing Microsoft ecosystems.

How We Deliver

GLOBAL REACH. LOCAL SUPPORT. EXPERT TRAINING.

Data Team As a Service (DTaaS)

OmniData offers clear direction and expert guidance to navigate the complexities of AI adoption and value creation. Offering tailored strategies OmniData empowers organizations to overcome obstacles and achieve success, driving forward into a future of AI-enabled innovation.

Unlock the full potential of your data with OmniData's Data Team as a Service. Our expert team of data scientists, engineers, and analysts becomes an extension of your organization, delivering tailored insights and strategies to drive your business forward.

How We Deliver

GLOBAL REACH. LOCAL SUPPORT. EXPERT TRAINING.

Managed Support

OmniData offers comprehensive managed support options tailored to meet your needs at any stage of the data maturity curve. With three flexible support plan tiers, you can choose the level of assistance that fits your requirements, each providing varying hours of support per month. Whether you need solution support, training, or development, OmniData has you covered. Plus, with regular check-ins, mid-month reviews, and monthly status reports, you can stay on top of your progress and ensure your data initiatives are always on track.

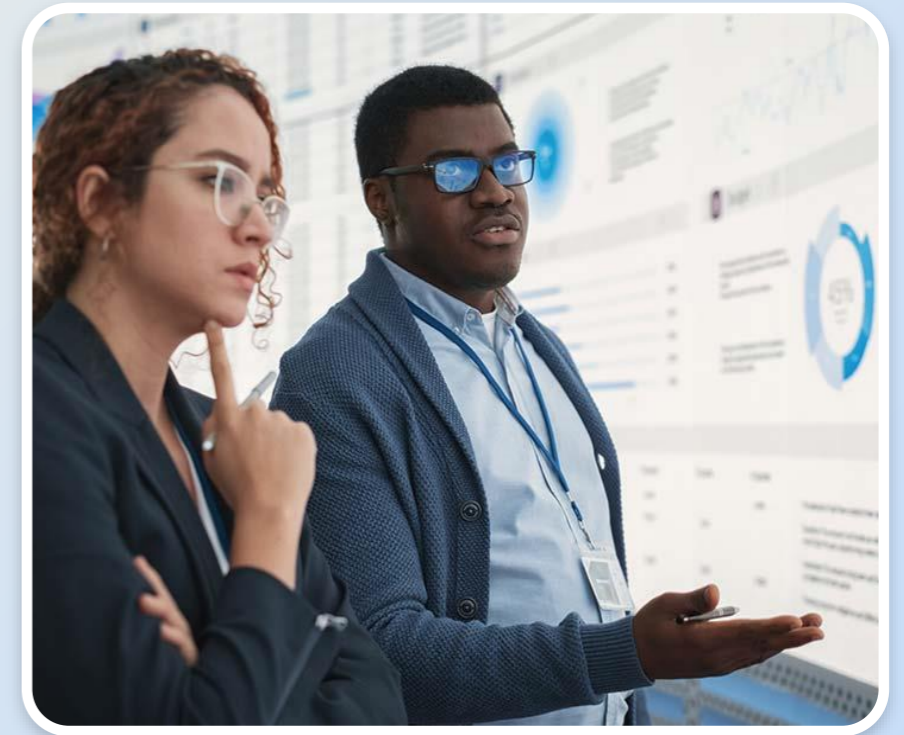

How We Deliver

GLOBAL REACH. LOCAL SUPPORT. EXPERT TRAINING.

Project-Based Services

From ERP migrations to Fabric implementations, data warehouse modernization and beyond, our project-based engagements are clearly defined for timely, on-budget execution by an experienced team of solution architects. Explore the details of a past engagement for a glimpse into what to expect when collaborating with OmniData on your next technical project.

How We Deliver

GLOBAL REACH. LOCAL SUPPORT. EXPERT TRAINING.

Training and Workshops

Unlock your potential by enrolling in our training workshops led by OmniData's certified experts in partnership with Microsoft.

- Dashboard in a Day (DIAD)
- Fabric Analyst in a Day (FAIAD)
- Copilot Studio in a Day (CSIAD)
- TimeXtender / Jet Analytics Training

Prestige Care goes all in on Microsoft after seeing Power BI in action

CUSTOMER STORIES

Prestige Care, Inc.
Prestige Senior Living, L.L.C.

“The interoperability between Azure, Power BI and Microsoft Teams has helped Prestige be more productive with our data.”

RIMA DESAI

Director of Applications & Analytics, Prestige Care
