Making your day

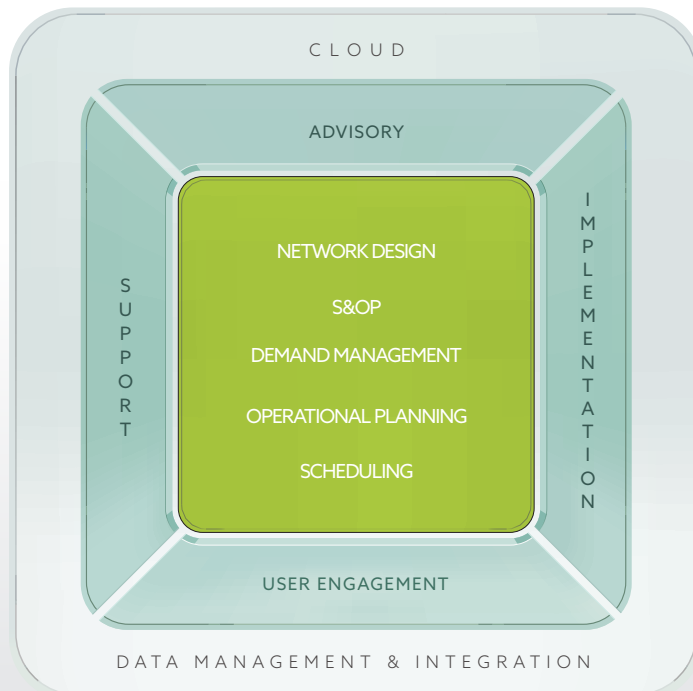

Managing supply chains is a tricky business.

So many challenges to face. So many decisions to make. With opportunities and pitfalls along the way.

Leadership teams focus on keeping shareholders happy. That calls for a solid strategy, supported by reliable analytics and cost control.

Supply chain managers have to balance conflicting goals. And that's a tough job when you're dealing with multiple regions, different value chains and industries, all at the same time.

And on top of all that, hundreds of **planners and schedulers**, wherever they are in the world, need to work together as one team, relentlessly turning plans into reality, and stopping issues becoming problems.

SOURCE | MAKE | DELIVER | DEMAND

Unison Planning™
helps you handle all of this.

It's a unified solution helping you **manage** your supply chain in all its **complexity**. From the strategic to the operational. From source to delivery. For diverse industries, from consumer goods to metals. It's full scope. It's in-depth. Its robust generic core has added layers specific to your industry, guiding you to make the right decisions where it matters most, at the heart of your business.

Unison Planning™ is a fully digital planning solution, built on a single unified model. It helps companies boost **collaboration** within and beyond their own value chains.

Better still. Unison Planning™ is packed with **intelligence**. You can depend on its smart architecture, its inherent logic, the embedded solvers, to keep you right

on track — and its up-to-the-minute AI and data science features, to completely **outsmart** the competition. Your innovation leaders will be more than impressed!

But it doesn't end there. **Transparency** is key. Personalized reporting and advanced analytics turn the data into valuable information, just the way you want it.

Flawless data integration keeps your plans firmly rooted in reality. And the cloud architecture gives you flexible **scalability**. Safe and secure. Guaranteed. Your tech leaders, they'll just love it!

Lots of complex challenges.
One simple answer.
