

# ZERO TRUST COACHING

Navigating a Zero Trust implementation requires expert guidance. Our Zero Trust Coaching offers personalized consulting from industry veterans, ensuring consistent application of Zero Trust principles across your organization. This service streamlines your cybersecurity strategy, improving efficiency and compliance while reducing costs.

## CYBERSECURITY STRUGGLES

Inconsistent execution of Zero Trust principles across teams.

Excessive spending on ad-hoc security measures.

Challenges in maintaining compliance due to rapid changes in regulations.

## ZERO TRUST SOLUTIONS

Consistent and accelerated execution of Zero Trust principles, improving overall cybersecurity.

More efficient spending through targeted coaching and guidance.

Continuous guidance helps us stay ahead of regulatory changes, ensuring ongoing compliance.

## WHAT DO YOU GET OUT OF ZERO TRUST

We understand that implementing a new cybersecurity strategy is an organization-wide initiative. Aligning all stakeholders and different departments is crucial in ensuring this is a smooth process. Zero Trust Coaching caters to different needs for specific stakeholder groups.

### BOARDROOM

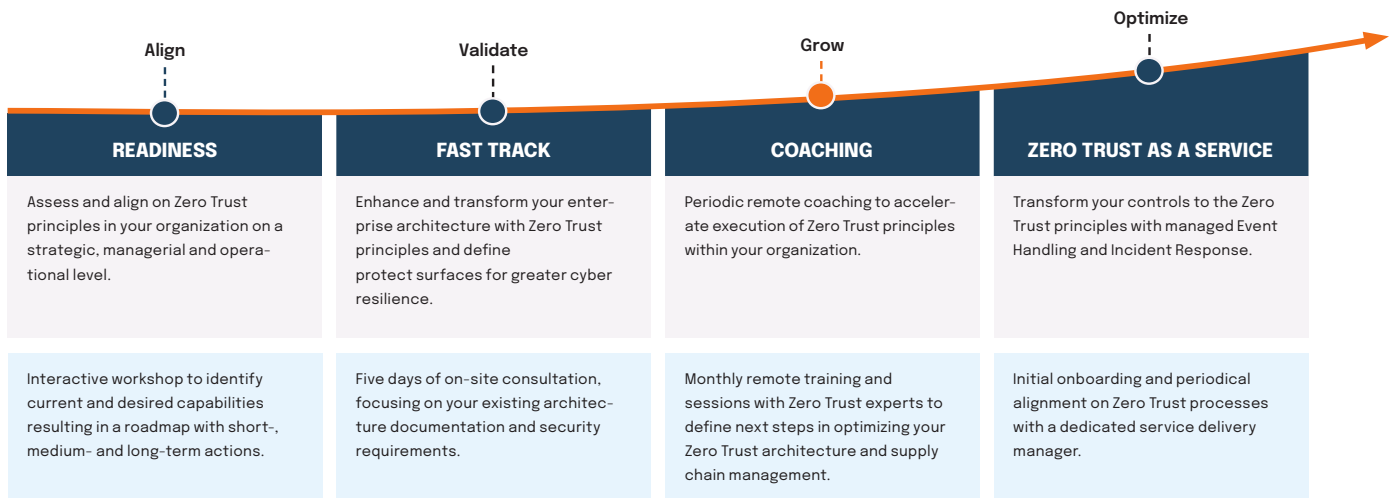

Ensures **continuous improvement** in cybersecurity practices, contributing to robust governance.

### MANAGEMENT

Streamlines cybersecurity strategies, enhancing **overall organizational growth** through improved resilience.

### IT OPERATIONS

Offers direct, **tailored guidance** to enhance operational cybersecurity practices and compliance.

# HOW DOES IT WORK?

Via monthly remote coaching sessions, ON2IT provides ongoing guidance to aid your enterprise architectures and IT operations team on the current and objective Zero Trust implementation status.

The resulting personalized guidance offered on protect surfaces and Zero Trust measures will accelerate your implementation process.

Each organization is looking for different types of guidance when it comes to Zero Trust, depending on their starting point and end goals. The table below indicates the differences between the four ways to get started with Zero Trust.

	ZT READINESS	ZT FAST TRACK	ZT COACHING	ZTAAS
<b>Approach</b>	Strategic	Accelerated	Tailored	Strategic, Tailored
<b>Focus</b>	Assessment and roadmap	Rapid deployment	Skill development	Overall cybersecurity operations
<b>Engagement</b>	Short term, intensive	Short term, intensive	Long term, ongoing	Long term, ongoing
<b>Customization</b>	High	Medium	High	High
<b>Outcomes</b>	Defined strategy and roadmap	Quick implementation	In-depth knowledge	Optimized cybersecurity strategy
<b>Deliverables</b>	Detailed assessment and deployed solution	Up to five identified, defined and ready to implement protect surfaces	Personalized coaching on your Zero Trust implementation	Zero Trust implementation
<b>Ideal for</b>	Organizations at any stage of their Zero Trust journey	Organizations with limited time and resources	Organizations with dedicated security teams	Organizations interested in a managed security solution
