

# OnActuate Transparency Platform Solution

## Open Government Made Easy with AI

### Citizens want answers. Governments need trust.

When information is hard to find, frustration builds - and trust in government erodes. Whether it's use of funds, vendor payments, or unclaimed checks, transparency is the key to keeping citizens informed and engaged.

### The easiest way to keep your constituents informed in real time.

Share data clearly, build community trust, and boost efficiency - without overextending your team or budget – with our interactive dashboard portal.

- Live data displayed through Microsoft Power BI visuals
- User-friendly interface to view and download public documents and data
- AI-powered chatbot for instant, automated support
- Scalable, secure and efficient back-end management

### Built with real-world input from government teams.

THE CITY OF  
**COLUMBUS**

#### Tom Noorkah

Director of Financial Systems,  
City of Columbus Auditor's Office

*"The interactive Transparency Platform allows us to easily share financial information and make public record datasets available to the public for download. This helps the City modernize service delivery and increase access to public information. We were able to make these goals a reality with the help of our partner, OnActuate, and their expertise in public sector technology."*

We partner with you to align transparency efforts with your goals and build a practical roadmap. Get started: [www.onactuate.com/transparency-platform](http://www.onactuate.com/transparency-platform)

### About OnActuate

OnActuate is a people-first global technology and consulting firm, and trusted partner of Microsoft and Dayforce. Our unmatched, tailored business and data solutions, coupled with our experienced team's collaborative approach, has helped many organizations reimagine their business in the digital age.
