

Microsoft Intune

# Use your phone or tablet for work and keep company information safe

## What is changing?

Use the devices you love to do your best work, while keeping corporate data and resources protected. Simply enroll your phone, tablet, or laptop in Microsoft Intune and enjoy peace of mind as it quietly protects your apps and data. All your private phone data remains for your eyes only! Your device will be automatically set up for corporate email and corporate network access, and you will continue to have access to personal apps and data.

## We care about your privacy

Your privacy is important to us. For more information about privacy and your specific enrollment scenario, see our privacy statement
