

# OneInspire: 1-day Power BI Report Insight

## ABOUT OneDNA:

From the thorough setup of an 'on-premise' data warehouse to the build and extraction of a Cloud data platform. We are a team of specialists with the goal to support our clients to a data-driven way of working.

## WHAT WE OFFER

Usually there is a lot of data available within an organization. The big question is, do we get the most out of all this data?

OneDNA offers a 1-day workshop in which you will be able to experience how fast new insights can be created, with a limited amount of datasets.

The OneInspire-workshop provides a quick and detailed insight into the numerous possibilities of Power BI. By ingesting your own data our team of professionals at OneDNA will ensure a stunning visual representation of your dataset.

At the end of the session, you will have a better understanding of the advantages your data could provide for your day-to-day decision making.

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
