# OneFactory

# Copilot Ready
## Security, Governance & Compliance for Microsoft 365

**OneFactory**, an official Microsoft partner with global operations, combines practical experience and technical expertise to help organizations adopt Artificial Intelligence (AI), automation, and modern work solutions safely, strategically, and effectively.
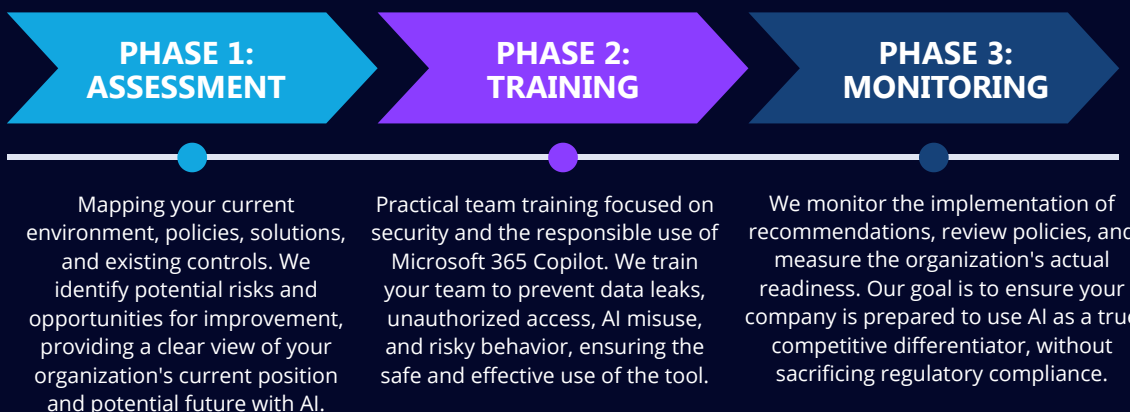

The **Copilot Ready** offering was developed as a starting point for organizations that don't yet feel ready to adopt AI in the enterprise or that want to strengthen their **governance**, **information security**, and **compliance** before moving forward with solutions like **Microsoft 365 Copilot**.

## 🎯 Offer Objective

Empower your organization to use Microsoft 365 Copilot responsibly, preparing your teams to use AI productively, securely, and in line with best practices in governance, data privacy, and information security.

## 🔹 Format and steps

The offer is carried out in approximately 16 hours, divided into 3 main stages, with a personalized approach according to the maturity and needs of your organization:

| PHASE 1: ASSESSMENT | PHASE 2: TRAINING | PHASE 3: MONITORING |
|---|---|---|
| Mapping your current environment, policies, solutions, and existing controls. We identify potential risks and opportunities for improvement, providing a clear view of your organization's current position and potential future with AI. | Practical team training focused on security and the responsible use of Microsoft 365 Copilot. We train your team to prevent data leaks, unauthorized access, AI misuse, and risky behavior, ensuring the safe and effective use of the tool. | We monitor the implementation of recommendations, review policies, and measure the organization's actual readiness. Our goal is to ensure your company is prepared to use AI as a true competitive differentiator, without sacrificing regulatory compliance. |

*Note: The scope of the offer, as well as its price and duration, may vary depending on the size of the organization, licensing and complexity of the environment.*

## ❓ Why choose Copilot Ready?

- Reduces security and compliance risks.
- Prepares the organization technically and culturally for the adoption of AI.
- Promote a safe and strategic journey with Microsoft 365 Copilot.
- Ensures faster and more sustainable return on investment in AI.

**Copilot Ready** is the first step toward conscious, efficient, and scalable adoption of artificial intelligence in your Microsoft environment. Contact our team to learn more about this and other offerings that drive responsible innovation.
