

Create

Create your contract in our easy to use HTML editor. No more static PDF files that you have to resend if changes are needed.

Sign

With Oneflow you can easily sign your contracts either with BankID/NemID, SMS or traditional electronic signatures.

All done!

Your contract is now kept in a safe and easily manageable state and you can get on to the next contract!

Send

After you have created your contract just add your counterpart and send it.

Archive & monitoring

Your contract will automatically be kept in an easy to search archive and we will help you keep track of all important events and data.
