VerbumCall™

Our AI-powered speech-to-speech OPI solution for Call Centers.

Enhance the over-the-phone interpretation (OPI) experience in 95+ languages.
Our consecutive interpretation AI technology is the easiest way to deliver a truly inclusive customer care experience.

95+ languages available, including dialects

Anytime: 24/7

Anyone: Simple, and friendly to use

VerbumCall™

Anywhere: over-the-phone translation

Real-time 95% accuracy

Secure. Your privacy is our priority

Increase Customer satisfaction

Improve your CSAT and NPS scores by communicating with your customers in their native language. Deliver amazing customer outcomes by eradicating potential misunderstandings.

Ease of Integration

The real game changer: Integrating VerbumCall with your existing telephony system is a breeze. Whether using PSTN or SIP, it meshes seamlessly with your preferred providers: GenesysCloud, Asterisk, Avaya SBCe, Cisco CUCM/CUBE and more.

Scalable & Confidential

VerbumCall offers a scalable solution that adapts to your business's needs, whether you're making one call or thousands. Enjoy confidentiality as our AI-powered conversations remain private and secure, ensuring your business communications are always protected.
