PMBOK Project & Portfolio Management Built for the Microsoft Cloud

PMBOK Project & Portfolio Management

OnePlan is the ultimate AI-enhanced PMI PMBOK Project & Portfolio Management solution, helping organizations standardize, optimize, and innovate their entire project portfolio. Integrating with leading work management tools, OnePlan centralizes resource and financial management while leveraging AI to ensure strategic alignment through a top-down approach.

PMI PMBOK STANDARDIZATION

Implement a globally recognized framework for consistency, governance, and optimized project outcomes.

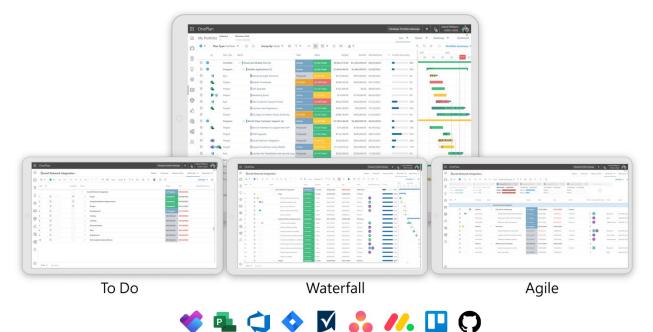

nePlan

UNIFIED TOOL INTEGRATION

Extend your favorite work management tools with strategic portfolio oversight and alignment.

STRATEGIC PROJECT SELECTION

Prioritize projects that deliver the highest value and align with business objectives.

OnePlan | PMBOK Project & Portfolio Management

OnePlan combines AI and PMI's PMBOK to deliver a seamless Project & Portfolio Management solution. With integrated tools, centralized control, and smarter decision-making, OnePlan helps your organization achieve its strategic goals.

PMBOK Framework Standardization

Standardize project management with PMBOK Stage Gates and artifacts to ensure governance and consistency.

Work the Way You Want to Work

Integrate with tools like Microsoft Planner, Smartsheet, Jira, and more for unified portfolio visibility.

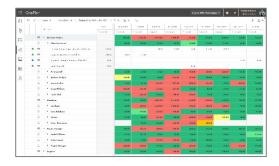

AI-Driven Intelligence

Automate tasks and gain predictive insights for smarter decisions and improved project success.

Strategic Portfolio Prioritization

Prioritize projects based on business goals and resource capacity for maximum value.

Comprehensive Financial Management

Track budgets, expenditures, and forecasts in realtime to keep projects within financial targets.

Advanced Reporting & Dashboards

Access real-time data with customizable reports and dashboards for quick, informed decision-making.
