Microsoft Teams Accelerator Workshop

THIS ACCELERATOR WORKSHOP WILL LIGHT UP MICROSOFT TEAMS ACROSS YOUR ORGANISATION AND THIS IS WHY

This workshop is aimed at new and existing Microsoft O365 customers that aspire to being more collaborative and innovative

HOW WE DELIVER THE WORKSHOP WITH A POINT OF DIFFERENCE

“Success is a collective game”

Engaging Facilitation

Bringing out the collective intelligence

- ✓ **Experiment with solution focus processes** to learn to work better together using Microsoft Teams by first focusing on actionable use cases based on how you currently work.
- ✓ **A complete approach** from discovery to ideation to commitment and finally adoption.
- ✓ **Communication methods** : make interpersonal communication an asset to the performance, commitment and progress of each use case chosen.

Differentiation : Gamification

Rely on the power of games

- ✓ **Serious Games** : playing to train, a natural method of learning
- ✓ **Develop team cohesion with work elements** : Innovation games blur the line between work and play. Our Teams workshop has an emphasis on team building to give participants the opportunity to appreciate the moment shared, while advancing on new ways of working with concrete ideas on how to make the tool used and useful.

Empathy Map

Enter empathy with the target

Empathy map is a workshop which aims to map the feelings, the perceptions, the aspiration and the frustrations of a target persona cible.

Rolling robe :

- 1. The facilitator draws a character with a zone for what he sees, hears, feels, thinks, says and makes.
- 2. In a phase of individual ideation, the participants propose ideas on post-its for

The 6 Planets

Explore points of view

Six planets is a game which will allow you to separate the thoughts of the collaborators according to six different functions to generate ideas.

Rolling robe :

The participants put themselves in immersion in the environment of every planet during 10 minutes, and concentrate on an aspect of the reflection at the same time

1. White planet : The facts, only the facts
2. Red planet : The feelings and the intuition
3. Black planet : The difficulties, the dangers and the risks.
4. Yellow planet : The optimism, the values and the profits.
5. Green planet : The creativity
6. Blue planet : The oversight

The climb

Value the existing and progress higher

Inspired by the methods World Café :

Co-develop in a appreciative way the foundations of a project to move forward to the wished future. Commit a list movement by an agile strategy of small steps.

Rolling robe :

1. We invited the participants to identify and to share where they are compared with their future ideal there, on a ladder with 10 levels. 10 = the wished future, 1 = the opposite.
2. Enumerate elements (fact observable) which make you're already there.
3. Imagine that on horizon ... weeks, you went up of 1 level, just man +1 in your scale : Describe in observable results.
4. Describe which first one small step to make it 1 tomorrow.

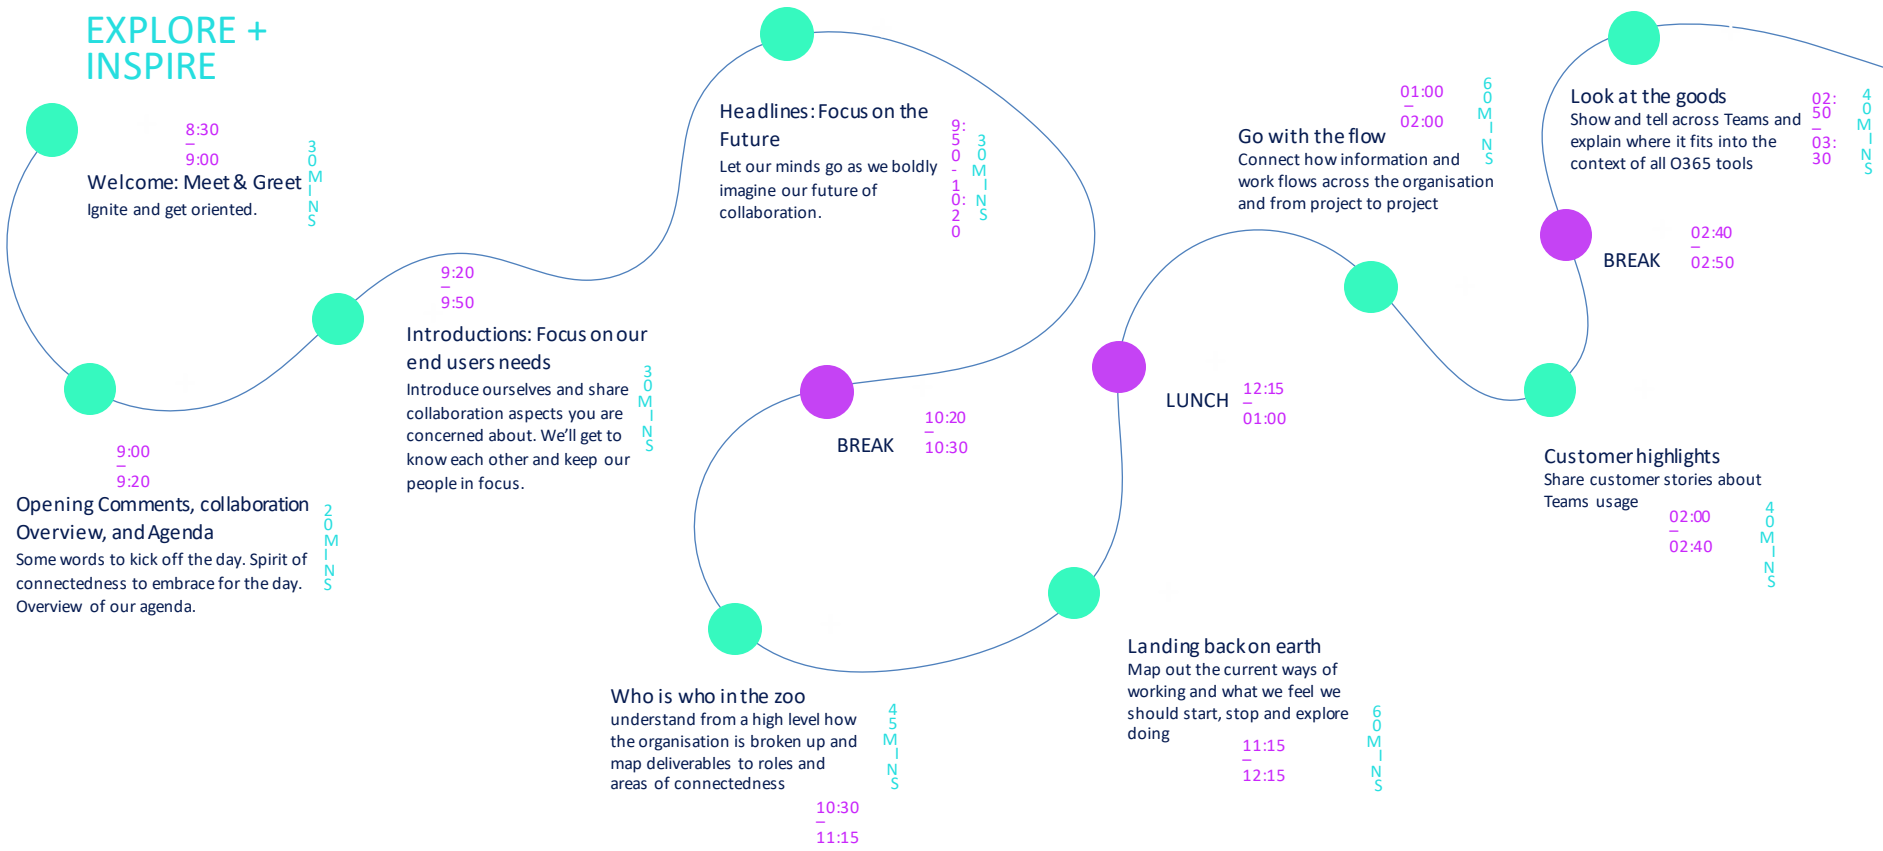

The participants learn to value what already works, and autorise itself to make just a small step to build any first results.

DAY ONE

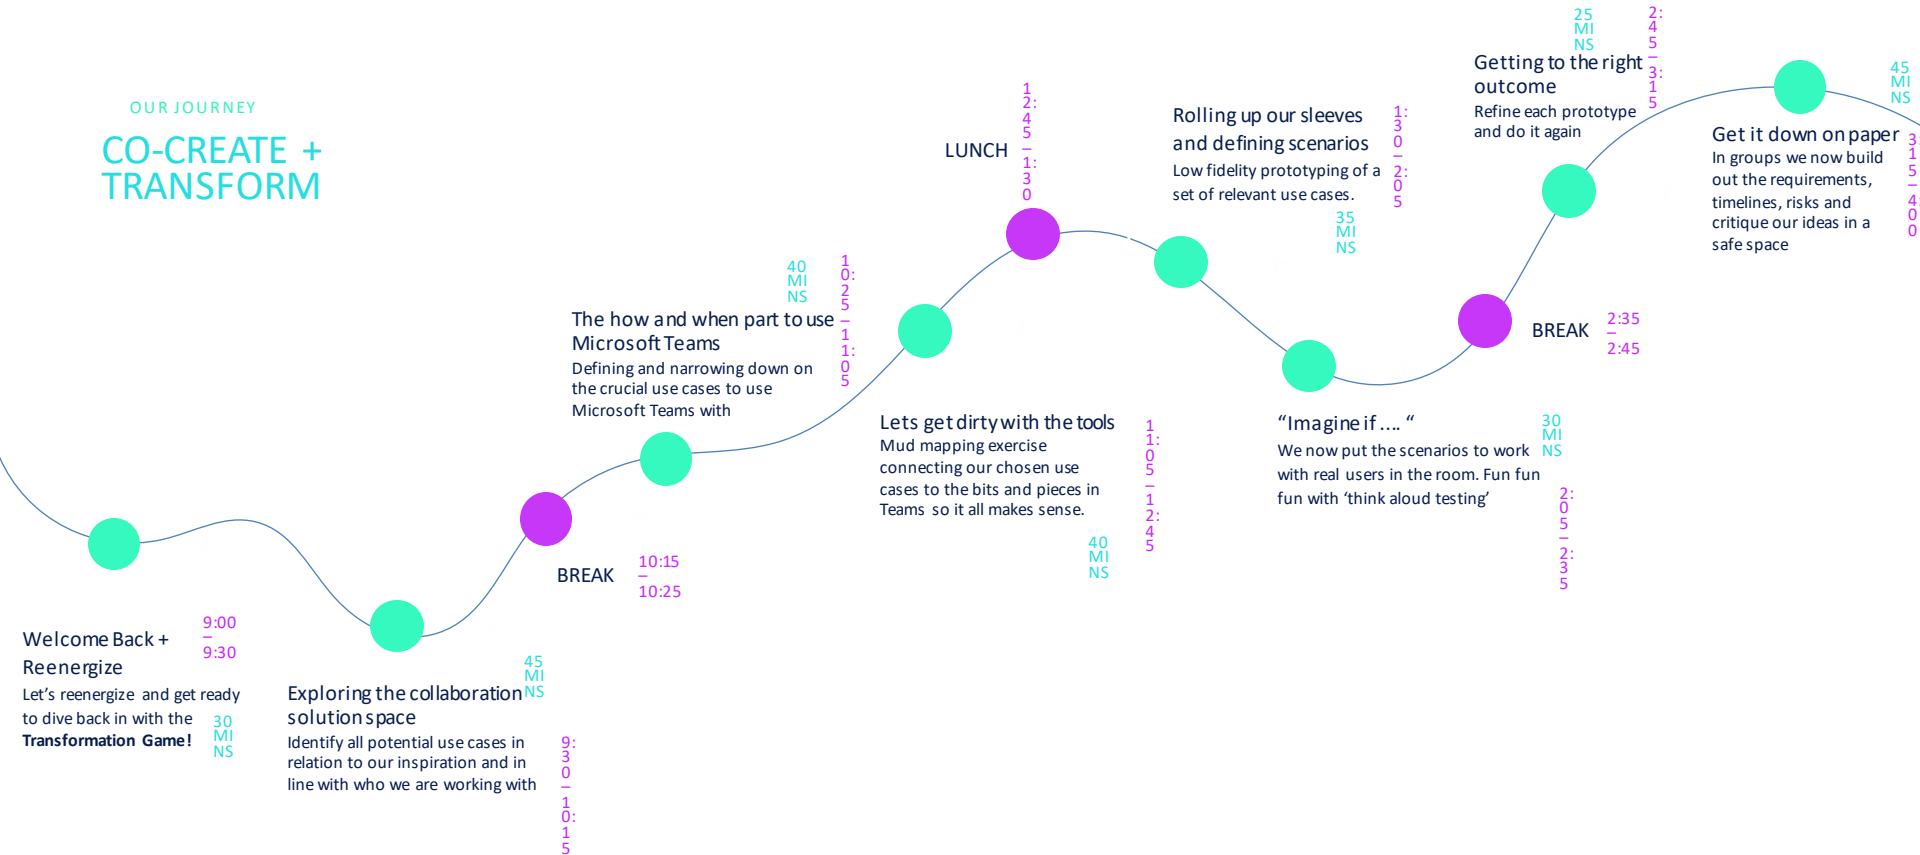

OUR JOURNEY

EXPLORE + INSPIRE

DAY TWO

OUR JOURNEY CO-CREATE + TRANSFORM

The onepoint approach to enabling Microsoft Teams in your organisation

Onepoint provide a two day course to empower employees to work in a more connected, collaborative way

We use Design Thinking and serious games to uncover the initial use cases which will allow the organisation to fully realise the value of Microsoft Teams

Onepoint cocreate a common understanding as to why changing the way your employees currently work should happen

Following the two days a set of Microsoft Teams champions will emerge ready to light up the rest of the organisation with a new way of working

Champions are equipped with what they need to empower the rest of the organisation to share, solve and innovate around specific business objectives and outcomes

In Summary

Our Employee Engagement specialists will work with your organisation to provide face to face Design Thinking and serious games sessions to make sure Microsoft Teams becomes a part of your 'modern workplace.'
