

Secure your Microsoft 365 Copilot Journey

Microsoft 365 Copilot is your trusted companion within the Microsoft 365 ecosystem. Seamlessly integrated into apps like Word, Excel, PowerPoint, Outlook, and Teams, CoPilot enhances your productivity, fosters creativity, and facilitates intelligent collaboration.

To harness the full capabilities of Copilot and ensure data security, it's essential to have Microsoft Purview Information Protection in place. Purview Information Protection empowers you to control the information accessible by Copilot, making your journey towards a more secure, efficient, and managed information workflow complete.

Insights into Threats and Risks

The workshop will provide you with current information on threats and risks associated with information leakage, helping you understand the importance of information protection.

Technical Solutions

Use the latest Microsoft solutions that identify, classify, and protect sensitive information. Data Governance can help you identify and remove outdated or obsolete data, ensuring the efficient management of your information assets.

Prevent Leakage

We assist you in preventing the leakage of sensitive corporate information and minimizing potential damages through increased awareness.

Strategic Guidance

Get our Oneivnn well-proven strategy for designing, implementing, and managing Microsoft Purview Information Protection to assist you on your Microsoft Copilot Journey.

Secure your Microsoft 365 Copilot Journey
