Your Dedicated partner while Navigating The Cloud Journey!

ONIT

Onit Cloud Assessments

At ONIT, our mission is clear: **Maximize the return on your cloud investments**. With our comprehensive Cloud FinOps approach, we ensure that every dollar spent on cloud infrastructure is strategically aligned with your business goals. We've developed a robust framework that combines cutting-edge tools and the expertise of our top-notch tech talent. Our process includes thorough reviews of your cloud infrastructure, insightful reporting, and actionable recommendations to drive efficiency and cost savings along with security.

Cost Assessment

1. Cost model optimization
2. Reservation optimization
3. Underutilized services optimization
4. Cost deduplications
5. Licensing optimization

Result:

1. Saving up to 15%
2. Spend Alerts, forecasted billing.
3. More visibility to cloud spends.

Performance Assessment

1. Architecture review
2. Microsoft recommended frameworks
3. Assess resource utilization.
4. Optimize network configuration.
5. Review Scalability Strategies

1. Improve performance.
2. Resource Efficiency
3. Scalability planning
4. Proactive issue Identification

Security Assessment

1. Comprehensive Security Audit of your environment.
2. Identify vulnerabilities, misconfigurations, and potential risks.
3. Evaluate Azure security center recommendation and policies.
4. Manual and automated Assessment

1. Identify non-addressed security flaws
2. Enhance security posture and follow the compliances rule.
3. Latest report on Access management policies
