

# Let ONwork tidy up your Teams!

Have you ever experienced that colleagues uncritically create new Teams, or that project information is hard to find? We have a solution! ONwork adds a layer of control to Microsoft Teams – making sure everyone gets a better work day and work overview.

ONwork allows you to implement rules and routines, without losing the flexibility of the Teams platform, and we organize the tools you already use. It's like room service for your Teams. Almost invisible, but it feels amazing!

## EXTENDED FUNCTIONALITY

- + Control of Teams that are created
- + Create Teams from SharePoint
- + Automated naming and a fixed folder structure
- + Easy access control – everyone sees what they need to see
- + Closed Teams are stored a searchable archive

## BETTER WORKFLOW

- + Great overview of projects and tasks
- + Processes and routines are taken care of, adding your own templates and checklists
- + Receive email from Outlook directly in Teams with two keystrokes

## IMPROVED OVERVIEW

- + Reports with project status
- + Grouped and tidy overview of established Teams
- + API for integration with your organization's systems for accounting and control
