

AI Accelerate Workshop

An action-oriented, engaging in a free two-hour workshop

Our AI Accelerate Workshop is a focused, 2-hour session designed to help your team cut through the hype and identify where AI can deliver real, measurable value for your business. Whether you're just starting your AI journey or exploring how to get more from your data, this session provides clarity, expert guidance, and actionable next steps to set you up for a successful pilot on Microsoft Azure.

What to Expect

The goal of the workshop is to educate and empower decision-makers who want to identify, prioritize, and pilot AI and automation opportunities to modernize, streamline, or optimize their business operations. This workshop will provide you with:

- Practical AI and automation opportunities tailored to your industry and goals
- Identification and prioritization of high-value use cases with clear business impact
- Guidance on what's technically feasible with your existing data and systems

Agenda

- AI and Automation Landscape Overview
- Use Case Identification, Business Need and Value, and Prioritization
- Pilot Planning and Next Steps

Audience

This session is best suited for Directors, Heads, and VPs of IT, Engineering, Finance, Sales, Marketing, and Data offices. Of course, all are welcome to join our workshops!

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups. With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
