# Chmura Krajowa

## efficiently migrates your business to Microsoft Azure

**Chmura Krajowa is a strategic Microsoft partner in Poland. It provides services of migration, implementation and consulting as regards the selection of cloud-based solutions for clients in the enterprise sector and public institutions.**

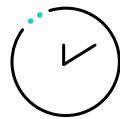

The team of certified experts working for Chmura Krajowa is characterized by top level of technical skills, excellent command of the best practices of Microsoft Cloud Adoption Framework for Azure and high degree of understanding for clients' strategic needs. This enables designing of optimal methods for the adoption of Azure services.

## What do we offer?

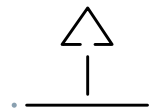

### Strategy

The Chmura Krajowa team composed of IT transformation architects and consultants draws on its extensive and unique experience to assist in the creation of a cloud-based strategy that facilitates and dynamizes achievement of business targets.

### Planning

The planning phase is one of the core stages on the road towards the cloud. Chmura Krajowa draws on CAF for Azure to use proven tools, optimal approaches and recognized standards that enable reduction of project risks and maximization of benefits.

### Migration

Migration ending in a success is more than just a suite of technical activities. A core aspect is comprised by selection of the proper approach and scenarios. Chmura Krajowa assists in the coordination of migration processes and in development of optimal process scenarios.

### Management

Efficiency and effectiveness of the applied cloud-based solutions largely depends on how those environments are managed. Chmura Krajowa is an expert in optimal design of those processes aimed to maximize the benefits arising from Azure solutions.
