

About OpsGuru

We are a certified Microsoft Azure global partner specializing in cloud adoption best practices, Kubernetes enablement and engineering services. We provide secure, rapid deployment on our unique Cloud Launchpad bringing best in class cloud solutions, operations and designs. Our hands-on approach to deployment and training sessions enable our clients to better operate their own cloud-native environment.

Gold Cloud Platform
Silver Application Development

Technical Features of OpsGuru Cloud Launchpad

Security Best Practices

- Shared responsibility
- Role-based minimal access

Virtual Network Deployment

- Subnets & Firewalls
- NAT
- VNet Peering & Virtual Hubs

Reliability

- 2+ availability zones
- versioned Terraform IaC
- SDLC applied to IaC

Governance, Risk & Control

- Security control policies
- Auto-detection of non-compliance

Isolated Environments

- Support dev, test & prod
- Shared services for common tools

Auditable Logs & Trails

- API logs & network logs in tamper-proof account with encryption

Scalable Operability

- Terraform-driven IaC
- Apply software principles to infrastructure

Centralized Billing & Budget Control

- Single pane of glass
- Granular costs on resources & owners

A Programmatic Approach to Cloud Adoption

Cloud Launchpad Workshops

Cloud Launchpad Deployment

Hands-on Tutorial

Cloud Roadmap

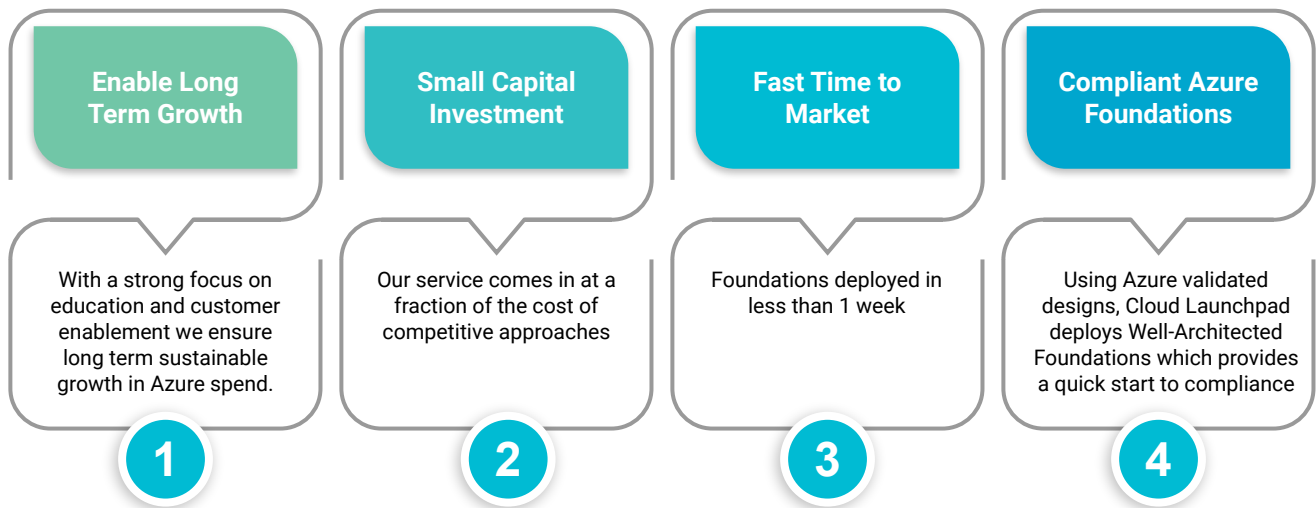

~5 Days

Join the OpsGuru customers who use **Cloud Launchpad** to

- Accelerate cloud adoption
- Increase development productivity
- Apply SOC2/HIPAA/PCI to cloud workloads
- Apply security best practices to satisfy end-user demands
- Expand workloads to other geographic regions
- Set up disaster recovery sites for business continuity

CLOUD LAUNCHPAD **Key Differentiators**

Skills and Capabilities

- Advanced Analytics
- Application Integration
- Artificial Intelligence
- Azure
- Azure Kubernetes Service
- Azure Migration
- Azure Security & Operation Management
- Backup & Disaster Recovery
- Big Data
- Cloud Database Migration
- Cloud Launchpad
- Communications & Media
- Competitive Database Migration
- Consulting and Professional
- Containers
- Data Warehouse
- Database on Linux
- Deployment or Migration
- DevOps
- Financial Services
- Healthcare
- Integration
- Kafka
- Kubernetes
- Machine Learning
- Managed Services (MSP)
- Manufacturing
- Microservices
- Migration
- ML Ops
- Power & Utilities
- Power BI
- Rapid Cloud Adoption
- Retail & Consumer Goods
- Security
- Serverless Computing
- Services
- SQL
- Terraform
- Windows
