CASE STUDY

Data & AI workshop aligns stakeholders and accelerates implementation

CypressHills

The Challenge

- Scaling up required automating data ingestion and monitoring
- Limited clarity on requirements
- Small team with limited capacity
- Multiple priorities

The Solution

- Interviews with key stakeholders
- Collate requirements and conduct a joint workshop
- Discover requirements and priorities
- Prepare and agree on implementation plan

The Results

- Defined roadmap with clarity about effort, cost, and timelines aligned to the scale up required.
