

Optimus Accelerator for Food & Beverage

Unlock the full potential of your Food & Beverage wholesale and distribution business with our industry-leading accelerator program. From streamlined inventory management to optimized distribution and barcoding, you'll take your business to the next level and beyond!

Do you feel identified?

- Wondering how you can provide your customers with a seamless ordering and delivery experience?
- Struggling with managing your inventory effectively and avoiding stockouts?
- Needing to reduce spoilage and expiry dates of perishable inventory items?
- Curious about how you can stay on top of the latest trends and meet the changing demands of your customers?
- Finding it challenging to maintain consistent product quality and ensure food safety?
- Having difficulty managing transportation costs and ensuring timely deliveries to your customers?

Optimus Accelerator for Food & Beverage enables you to:

- Integrate and automate accounting, sales, purchasing, inventory, date management, lot tracking, bank reconciliation, and customer transaction information.
- Gain agility and reduce human errors in your picking, counting, receiving and transfer processes with our integrated barcoding solution, improving product turnover by gaining visibility on your inventory.
- Increase customer satisfaction by delivering orders accurately and faster, ultimately increasing productivity and margins by delivering precise orders.
- Generate real-time reports on customer transactions and inventory management.
- Control your receiving by gaining agility and improve returns and claims to suppliers using handhelds while reducing paper usage.
- Track your perishable products with ease and confidence.

Optimus Accelerator for Food & Beverage is a tailor-made solution that caters specifically to the needs of F&B wholesalers and distributors. Our world-class platform is optimized with features highly valued by our F&B customers, reducing implementation time and providing predictable project investment costs.

With ongoing enhancements and updates, our solution offers cutting-edge barcoding and handheld features that will supercharge your business.

Transform your food & beverage wholesale and distribution business with our ERP and barcoding solution!

Say goodbye to slow and outdated processes and hello to a faster, more efficient supply chain. Our rapid methodology means you can be up and running in just 10-14 weeks, without the need for costly customizations. Our solution is designed based on our F&B customers' most-requested functionalities, ensuring that you get exactly what you need to take your business to the next level.

Optimus Accelerator for Food & Beverage is built on Microsoft Dynamics 365 Business Central and powered by technologies from around the world.
