Optimus

Serve Up Success with *BiteGenius* by Optimus

The Restaurant Management Accelerator

Do you feel identified?

- Struggling with food waste due to surplus purchases or prepping?

- Curious about how can I control food and supply costs while still offering high-quality products?

- Finding it challenging to differentiate your restaurant from competitors in a crowded market?

- Are you experiencing challenges in making informed, real-time decisions because your restaurant's information is not in your system or is fragmented across multiple platforms?

- Would you like for your accounting, recipe management, meal planning, business intelligence, purchasing, delivery, pickup and restaurant POS to be one system instead of many platforms?

With *BiteGenius* by Optimus Restaurants can easily:

» Integrate accounting, sales, purchases, inventory, and customer transaction information.

» Control prices, recipes, menus, offers, and campaigns from a single location.

» Analyze real-time revenues and costs to quickly identify trends and opportunities.

» Track employee performance and communicate clearly with them.

» Generate real-time reports on customer transactions and inventory movements, consolidated and by location.

» Add new locations easily and efficiently.

» Streamline decision-making with real-time reports, such as X and Z reports, customer transactions, and inventory, consolidated and by location.

We get it! You're busy running your restaurant and don't want to spend ages on setting up a new management solution. That's why we've got your back with our Optimus solution. It's made for restaurants like yours and you can get it up and running in just 4-6 weeks.

We've included most of the features our clients love, so you can manage your business more efficiently than ever before!

What's in it for you with *BiteGenius* by Optimus?

A solution built on a world-class platform that is optimized with features our clients love, which reduces implementation time, provides predictable project investment costs, and offers ongoing enhancements and updates.

BiteGenius by Optimus is built on Microsoft Dynamics 365 Business Central and powered by LS Retail.
