WE ARE ALL ABOUT WORKFORCE AUGMENTATION

About Us

OrangeFIN Asia is a homegrown company that specializes in RPA. We provides a fully functional digital workforce called the OrangeWorkforce.

OrangeWorkforce is the optimum way of using the Robotic Process Automation.

What is OrangeWorkforce?

OrangeWorkforce is a Self-Healing Digital Workforce RPA with Artificial Intelligence (AI) Capabilities and Situation & Operation Awareness, which can handle complex, high-volume, repeatable tasks traditionally done by humans.

24/7 High Availability & Works 24/7 non-stop

Hot Disaster Recovery

100% Managed by OrangeFIN Asia Professionals Services

100% Support by OrangeFIN Asia

BE PRODUCTIVE NOT BUSY

Automate Your Work With Us!

OrangeWorkforce®

OrangeWorkforce Modules

OrangeAI (The Brain)
OrangeAI is the brain of the OrangeWorkforce and is in charge of the OrangeBots' awareness and decision-making.

OrangeVision (The Eyes)
The OCR module of OrangeVision is used for the recognition of printed or written text characters in the contents.

OrangeBots (The Robots)
OrangeBots can automate mundane rules-based Operation processes, enabling Operation users to devote more time to higher-value tasks.

OrangeControls (The Physicals)
Doing physical task using Digital Workforce.

OrangeSensing (The IoT)
Connecting the OrangeBots with IoT (Internet of Things).

What Makes OrangeWorkforce Special?

OrangeBots are the software Robots that do the work and can automate mundane rules-based Operation processes.

OrangeWorkforce Special Features:

Self-Recovery - OrangeBots' ability to Auto Restart itself in case Windows service goes down.

Peer Monitoring - OrangeBots' ability to monitor each other's performance and environment in the same OrangeWorkgroup.

Hive Maintenance - OrangeBot's ability to perform Health Check & Housekeeping on Hard Disk Space, Working Files, Excel Files, Output Files, Temp Files, Settings, Windows OS Settings, Browser Setting, Hard Disk Defragmentation and provides a Health Check Notification & Report.

Load Balance - OrangeBot's ability to take over a task from an OrangeBot that is overloaded with tasks.

Self Aware - OrangeBot's ability to know its own network, CPU, storage, and memory capacity.

Backbone of OrangeWorkforce

Job Studio Designer

Users can create new jobs for OrangeBots using Job Studio Designer and also using the job template that is ready on the OrangeWorkforce website.

OrangeBots (The Robots)

OrangeBots can work for 24 hours per day non-stop, based on the job and schedule that the user has created.

Control Center

The Control Center is where OrangeBots are centralised for control and monitoring. The bots' tasks will be saved in the OrangeCloud, which can be accessed via the control centre.

OrangeMobile

OrangeMobile is a mobile application that allows users to monitor and check the OrangeBot's job schedule, server's CPU usage, memory usage, storage information and received job status notification via mobile phone.

OrangeVision Form+

OrangeVision Form+ is a Digital electronic conversion of data from PDF or image form into Excel form.

A Software Tool: Form+ is a tool used to convert data electronically from a scanned document, either PDF or image form, into a readable text format in Microsoft Excel.

Uses OCR Technology: Form+ is embedded with Optical Character Recognition (OCR) technology to read content from handwritten or printed text, which then stores the data systematically in an Excel spreadsheet.

Integration with RPA: RPA extracts the data from Excel and fills the info into the website/system.

Automate Anytime Anywhere!

Manage your bots remotely.

OrangeWorkforce®

OrangeCloud Platform
OrangeCloud provides support, upgrades, and secure implementation via a cloud platform, facilitating remote collaboration

Seamless Monitoring
OrangeMobile app keeps users informed about OrangeBots activities in real-time

OrangeCloud Advantages

✓ **Affordable RPA on Cloud**
Flexible pricing with rapid automation

✓ **Scalability and Flexibility**
High availability, scalability and security

✓ **Low Cost of Ownership**
Saves cost of IT infrastructure & maintenance

✓ **Easy to Maintain**
Reduces system downtime & costs for solution upgrades
