Your personal M365 PoC
The start of your journey to more productivity

With your personal M365 Proof-of-Concept, Orange Networks can help you to start the journey towards your modern workplace!

Windows 10 + Office 365 PoC + EMS

Our well experienced staff help you starting your journey to modern workplace by showing you how the future of working looks like. With our PoC you get a personal hands-on experience on Microsofts newest workplace technology.

Why customers do a M365 PoC:

- Learn how to improve your work with M365

- Getting all the latest News and Updates

- Having a personal hands-on experience

Newest Security Features

- How M365 protects you
- How it helps to identify risks
- What real Security means
- How Microsoft Enterprise Mobility Suite (EMS) protects your infrastructure

Be secure, always.

Best user experience

- Easy to use for everyone
- Same experience as at home
- Modern and intuitive interfaces
- Easy and secure work

Lower user support needs.

Easy management

- Learn about Modern Device Management
- Leverage the cloud, if you want to
- Learn how to relieve you Admins

Let Admins focus on important tasks.

Implementation of a Windows 10 client at a worldwide 28000 users environment. Migration of the existing Windows 7 client. Configuration of the existing SCCM Current Branch environment. Creating Windows 10 Servicing to automate updates. Planning the roll out of the new devices. Helping OSRAM to reduce the time they need to manage their SCCM and Windows clients. Develop together better processes to keep the environment clean and on high performance.

- OSRAM, Windows 10 Implementation, OSRAM Licht AG
