

Automate task coordination

Real time, comfortable
and stress free

WHY TASKCONTROL?

Effectively organize team members, automate task delegation, monitor all activities and continually perfect your plan. This simple tool:

SAVES YOUR TIME

and countless hours when creating, optimizing and implementing plans. It lets you:

- Manage participants
- Link tasks
- Monitor over time
- Create templates

SIMPLIFIES COMMUNICATION

No more chaos, confusing charts, online chats and dozens of phone calls. Take advantage of:

- Intuitive interface
- Orders automation
- Continual notifications
- Audit records

OPTIMIZES PROCESSES

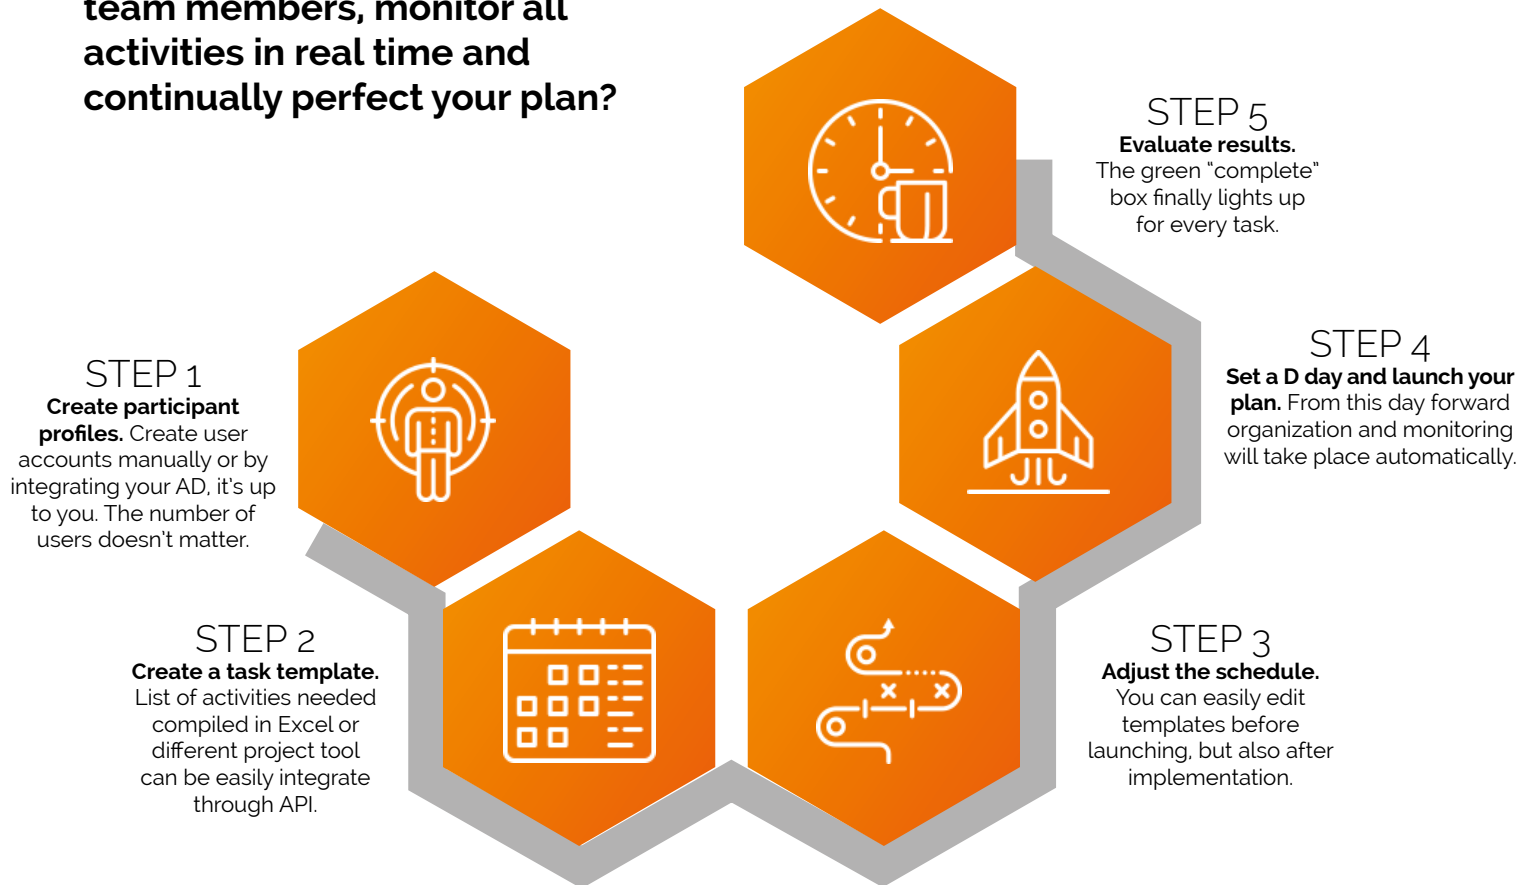

It evaluates activities, generates clear reports and optimizes plans for later use. It provides:

- Reporting
- Process optimization
- Precise planning
- Template updates

With the TaskControl application, you can easily plan and interactively manage even the most demanding set of activities

TaskControl is based on our experience with the implementation of over 160 transformation projects. It meets the needs of coordinators and managers who were lacking a tool to automatically delegate tasks and manage staff, groups and suppliers.

How can you effectively organize team members, monitor all activities in real time and continually perfect your plan?

WHAT YOU GAIN

- Time savings when planning
- Control over the course of activities in real time
- Optimal synchronization of activities (minimum downtime between activities)
- A detailed record of implementation
