OUR VISION

ORDINA, AHEAD OF CHANGE

We are focused on helping our customers to get a digital head start.

KEEP YOUR REMOTE WORKERS AHEAD OF CHANGE

Challenges

- Poor technology and/or infrastructure is the biggest barrier to effective remote working
- Remote collaboration with teams , customers and partners is often difficult and time consuming
- Transforming people to new ways of remote working lowers productivity

Gartner: 45% of employees will work remotely after the COVID-19 pandemic, compared to 30% pre-pandemic.

Gartner: 54% of HR leaders indicated that poor technology and/or infrastructure for remote working is the biggest barrier to effective remote working in their organization.

Ideal Solution

- A home office equipped with tools and peripherals that support effective remote working
- Remote collaboration with teams, customers and partners is easy and efficient.
- Remote workers adopt the new ways of working easily and quickly

Desired Outcomes

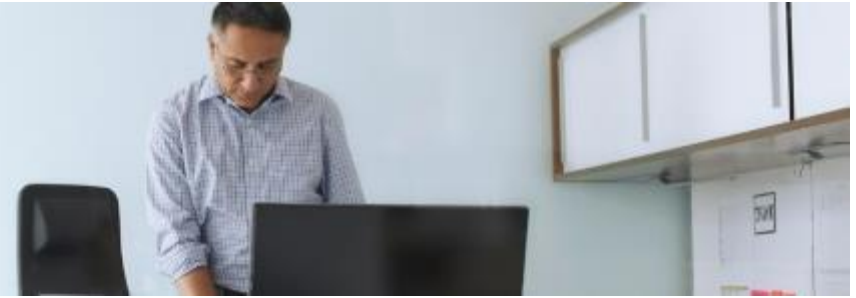

- Remote workers are more productive because they gain between **1 to 8 hrs** per week by improved collaboration and information sharing as well as more efficient remote meetings.
- Executives and key decision makers can make decisions faster by on **average 17,7 %** because information and resources are better accessible and readily available
- Maximize your investments by improving your productivity score with to at least **71%**

Forrester :The Total Economic Impact™ Of Microsoft Teams Improved Employee And Company Performance

ORDINA'S MICROSOFT TEAMS@HOME

Why Ordina chose Microsoft Teams

Ordina and Microsoft Teams: getting a digital headstart

Empowered by Microsoft Teams

- Microsoft Teams is recognized as a Leader in Gartner UCaaS and Meetings Solutions Magic Quadrants
- 91% of the Fortune 100 companies use Microsoft Teams successfully
- Teams enables rich collaboration features out of the box such as integration with OneDrive for Business, SharePoint Online and combining chat and document co-ownership
- Teams builds on what's already there and leverages existing Microsoft 365 licensing investments

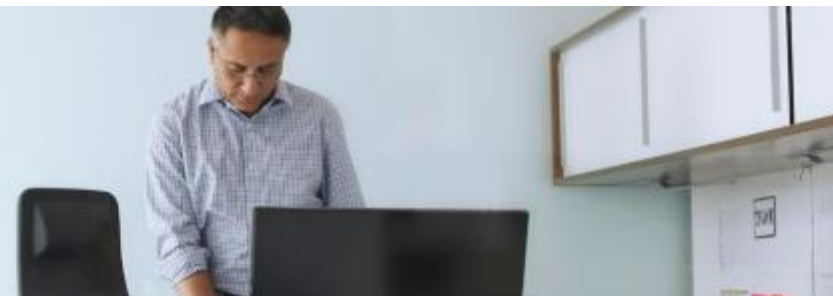

Increase your productivity

- Teams allows remote workers to collaborate in real-time with features like coauthoring and version control, searching documents, conversations, and names, all available in one place
- Teams enables better collaboration between teams, partners, vendors or customers by providing a shared workspace using familiar apps
- Teams allows you to make and receive calls with internal and external groups
- Teams is available in 53 languages and 181 markets. Connect across Windows, Mac, iOS, and Android.

Rich Management and control

- Teams leverages existing Identity and access management capabilities based on Office 365 and Azure AD.
- Teams securely integrates with other existing Office 365 services such as SharePoint Online
- Office 365 data-loss prevention (DLP) capabilities also covers Teams
- Office 365 offers multiple features for controlling the life cycle of messages and files in Teams
- Teams data is stored in Azure which supports more than 90 regulations and standards like GDPR and ISO
