NEW APPROACHES AND CREATIVE PEOPLE

Modern IT Solutions need new approaches and creative People. Grown out of engineers, we as P3 always have an eye on the technological possibilities and can design and implement optimal solutions.

MORE THAN 20 YEARS OF EXPERIENCE AS SW DEVELOPER

Since 2009 P3 has developed more than 300 digital software solutions with a customer-oriented approach and state-of-the-art quality.

EXPERTS IN VARIOUS FIELDS

We have more than 200 Software Experts distributed over different technologies and frameworks and 140 certified agile Project Managers (SCRUM, SAFe, LeSS, ...).

WE TACKLE AND SEE OURSELVES AS PARTNERS

We build innovative, future-oriented complete packages for our customers & partners and solve them together, never losing sight of the E2E idea.

RELIABLE QUALITY

We have a proven project quality, which is guaranteed by on-site support and a test-driven development process with a focus on automated testing.

We have been an RPA partner and reseller of **Blueprism** since 2017.

END-2-END FOCUS

We accompany our customers from the idea to the product and thus develop sustainable solutions, which are supported by us beyond the operation.

We believe that companies should focus on the following points. We help you achieve your goals.

Innovation & Automation

- Empowering the organisation
- Innovation workshops and market analyses
- Collecting and implementing new ideas

Design Thinking

- Preparing ideas for implementation
- Introduce ideation methods
- Implement ideas and adapt them to the needs of users

Agility

- Leverage agile project management methods such as SCRUM and SAFE
- Change management and empowerment of specialist departments
- Change mindset and think innovatively

Inner Source

- Shared Code and Artifacts and Wikis
- Using Office 365
- Communication via MS Teams and Azure DevOps

Partnering

- Building a partner network
- Use skills in a targeted way
- Driving innovation together

Cloud, Data & Cyber Security

- Leverage Native Cloud Solutions
- DevOps, DevSecOps
- Latest technologies, scaling and security
- Cloud as a kit

OUR APPROACH

We accompany you from your idea to the final solution end-to-end.
