Unlocking Business Efficiency with Microsoft Power Platform Solutions

Free Workshop

Created for:

All MS Power Platform prospects and existing customers

Created by:

P3 group GmbH
Heilbronner Str. 86
70191 Stuttgart
Germany

AT A GLANCE.

We are an independent, international management consultancy founded in 1996 as a spin-off of the Fraunhofer Institute for Production Technology IPT.

We combine technological expertise with visionary thinking to create sustainable added value. As a dynamic partner, we ensure the seamless integration of technology, software and consulting.

Facts, figures & data to the point.

P3

"Business as unusual" as a guiding principle.

We combine consulting expertise with a technological vanguard role, **collaborating with our clients** to pioneer innovative solutions tailored to specific business needs and product developments.

Our role transcends traditional consultancy. As **makers, implementers, and supporters**, we work alongside our clients to translate their visions into tangible outcomes.

"Business as unusual" is our guiding principle, propelling us to think outside the box and redefine standards. For us, the future is not abstract; it's what **we passionately shape every day**.

WHAT WE ARE CAPABLE OF.

With us, project realization is more than just a presentation! We focus on creative approaches, innovative solutions and personal support to ensure that your project fulfills all expectations.

A kaleidoscope of possibilities.

Focus

We focus on an approach that goes far beyond the usual. Our work is characterized by insight, clarity, and foresight. Each element is crucial for creating future-proof solutions.

Oversight

We tackle complex challenges by optimizing processes and empowering organizations. Through clear insights and effective strategies, we promote sustainable growth.

Insight

Our approach begins with a deep understanding of our clients' specific requirements. By coding and testing tailored solutions, we create innovations precisely tailored to these needs.

Foresight

Our strategic consultations lay the groundwork for our client's future success. We develop business models and technology strategies geared towards long-term success.

Portfolio as unusual. Pre-selected for you.

Power Platform Orbit around the current infrastructure

Power Platform

Dataverse | Power Apps | Power Automate | Power BI | Copilot | Teams

Automate your app

Drive business processes with an app

Automate

Act

Transactional view

Automate the response to metrics

Respond to data during analysis

Triggering workflows through virtual agents

Analysing data from apps

Enterprise architecture

Analytical view

Assist

Analyze

Interact with Copilot

Identify opportunities for personalization and automation

Main Process Overview

Power Platform

Dataverse · Power Apps · Power Automate · Power BI · Copilot · Teams

P3

**Input & Output
Dataflows / Power Automate**

Direct Query

Cloud Reporting

Data Storage

Over 500 data connectors can be used dynamically as a data connection and can also be customized.

Data & processing

High-performance, multi-relation-capable reference architecture (CDM, Common Data Model) including meta data structure and logic automation.

Management & Visualization

Direct data management as frontend via Canvas or Model-driven Apps available. Real-time reporting through balanced data analytics calculations between Dataverse and BI Measuring.
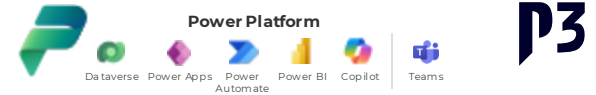

Communication

Desired communication is freely available by linking the cloud reporting.

SQL · ORACLE · JSON · salesforce · SAP · BW on HANA · Excel · CSV · S

Dataverse and/or **Power Automate**

Power BI and/or **Power Apps**

Teams and/or **Web**

Support

Main Benefits

Information Freshness

- Continuous Data Refresh – scheduled or real-time (dependent of data source)
- Database data always real-time available

Change Management

- Self Service – Employees can manipulate by their own
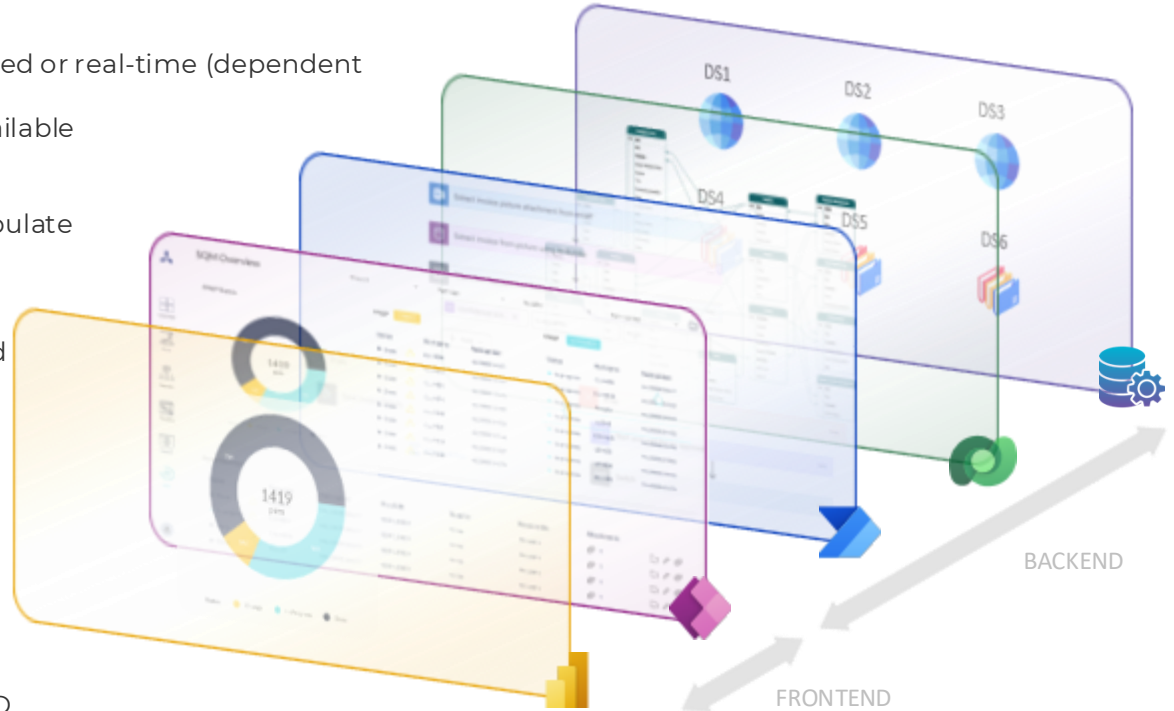

Infrastructure

- Fully MS 365 Package implemented
- Nearly unlimited number of connectors available

Mobility

- Availability from any location & any device
- Departments can work simultaneously

Security

- All information secured by Azure AD
- Customizable Row-Level-Security available
