

We have simplified the cybersecurity assessment process and made it accessible for all businesses

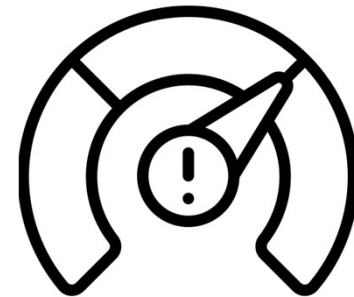

www.cybernod.com

Why Cybersecurity?

Cost of cyber crime

Cybercrime will cost companies worldwide an estimated [\\$10.5 trillion](#) annually by 2025, up from \$3 trillion in 2015. At a growth rate of 15 percent year over year.

Impact and Severity of Cyber Attacks

consequences of cybersecurity incidents can impact your business weeks, if not months or years later. Below are five areas where your business may suffer as a result of a breach:

- **Financial losses**
- **Loss of productivity**
- **Reputation damage**
- **Legal liability**
- **Business continuity problems**

Problem

**Increased cyber-crime
targeting small and medium-
sized Businesses**

**Complicated
assessment tools**

Costly services

**Lack of cybersecurity
awareness**

**Disjointed cybersecurity
solutions**

Solution

Single pane of glass

Easy & accessible security solution
