

A Robust Solution for Online Communities & Collaboration

BIZLIGO FEATURES AND DIFFERENTIATORS

BizLigo Flexibility Indices

The BizLigo support teams follows the sun model for support. We have a dedicated Customer Relationship Manager for every customer. Incidents have SLA's and are tracked by an Incident tool.

BizLigo offers Event Management as a built-in platform. You can integrate any collaboration platform such as Zoom/Teams/GoToMeeting etc to host an event via BizLigo

BizLigo also offers flexible membership tiers that can be set by the administrator.

Using a single creator login, BizLigo can facilitate creation of multiple pages/communities with different membership plan

BizLigo offers analytics to membership, events and its associated revenue generation.

The pricing for BizLigo doesn't have hidden charges or transactional fees. It is also flexible to match a similar competitor setup, as per mutually agreed terms.

BizLigo supports many payment gateways.

BizLigo can offer Role Based Access Controls(RBAC) to different pages.

BizLigo comes with a mobile application on iOS and Android devices with messaging capability.
