

Papermap is an **AI-Native Data Platform** purpose built for **lean teams** with an in-built analyst.

The Gut Feeling Era is Over.

In 2026, you don't die from a lack of effort.
You die from slow feedback loops.

We Solve **Two Different** Multi-Million Dollar Problems

Which expensive headache do you have right now?

For Ops Leaders: The **Efficiency** Problem

The Pain

You are wasting 20 hours/week
of your highest-paid people's time
on spreadsheet gymnastics.

The Papermap Fix

- Automate the boring stuff instantly.
- No-Code. No IT tickets. No waiting.
- Target: Founders, COOs, Heads of Product.

Is this you?

For CTOs: The **Build vs. Buy** Problem

The Pain

You are about to waste 6 months of engineering time building a customer-facing dashboard that isn't your core product.
This middleware will be commoditized.

The Papermap Fix

- **Don't build it.** Embed us.
- Ship a full BI suite to your customers next week
- White-label API. You get the credit; we do the math.

Or... is this you?

Introducing papermap.ai

Big Data Analytics. Built for Small Teams.

How It Works (In 3 Steps):

Connect

Big Data Analytics.
Built for Small Teams.

YOUR DATA STACK

Ask

A plain-English question
no SQL required.

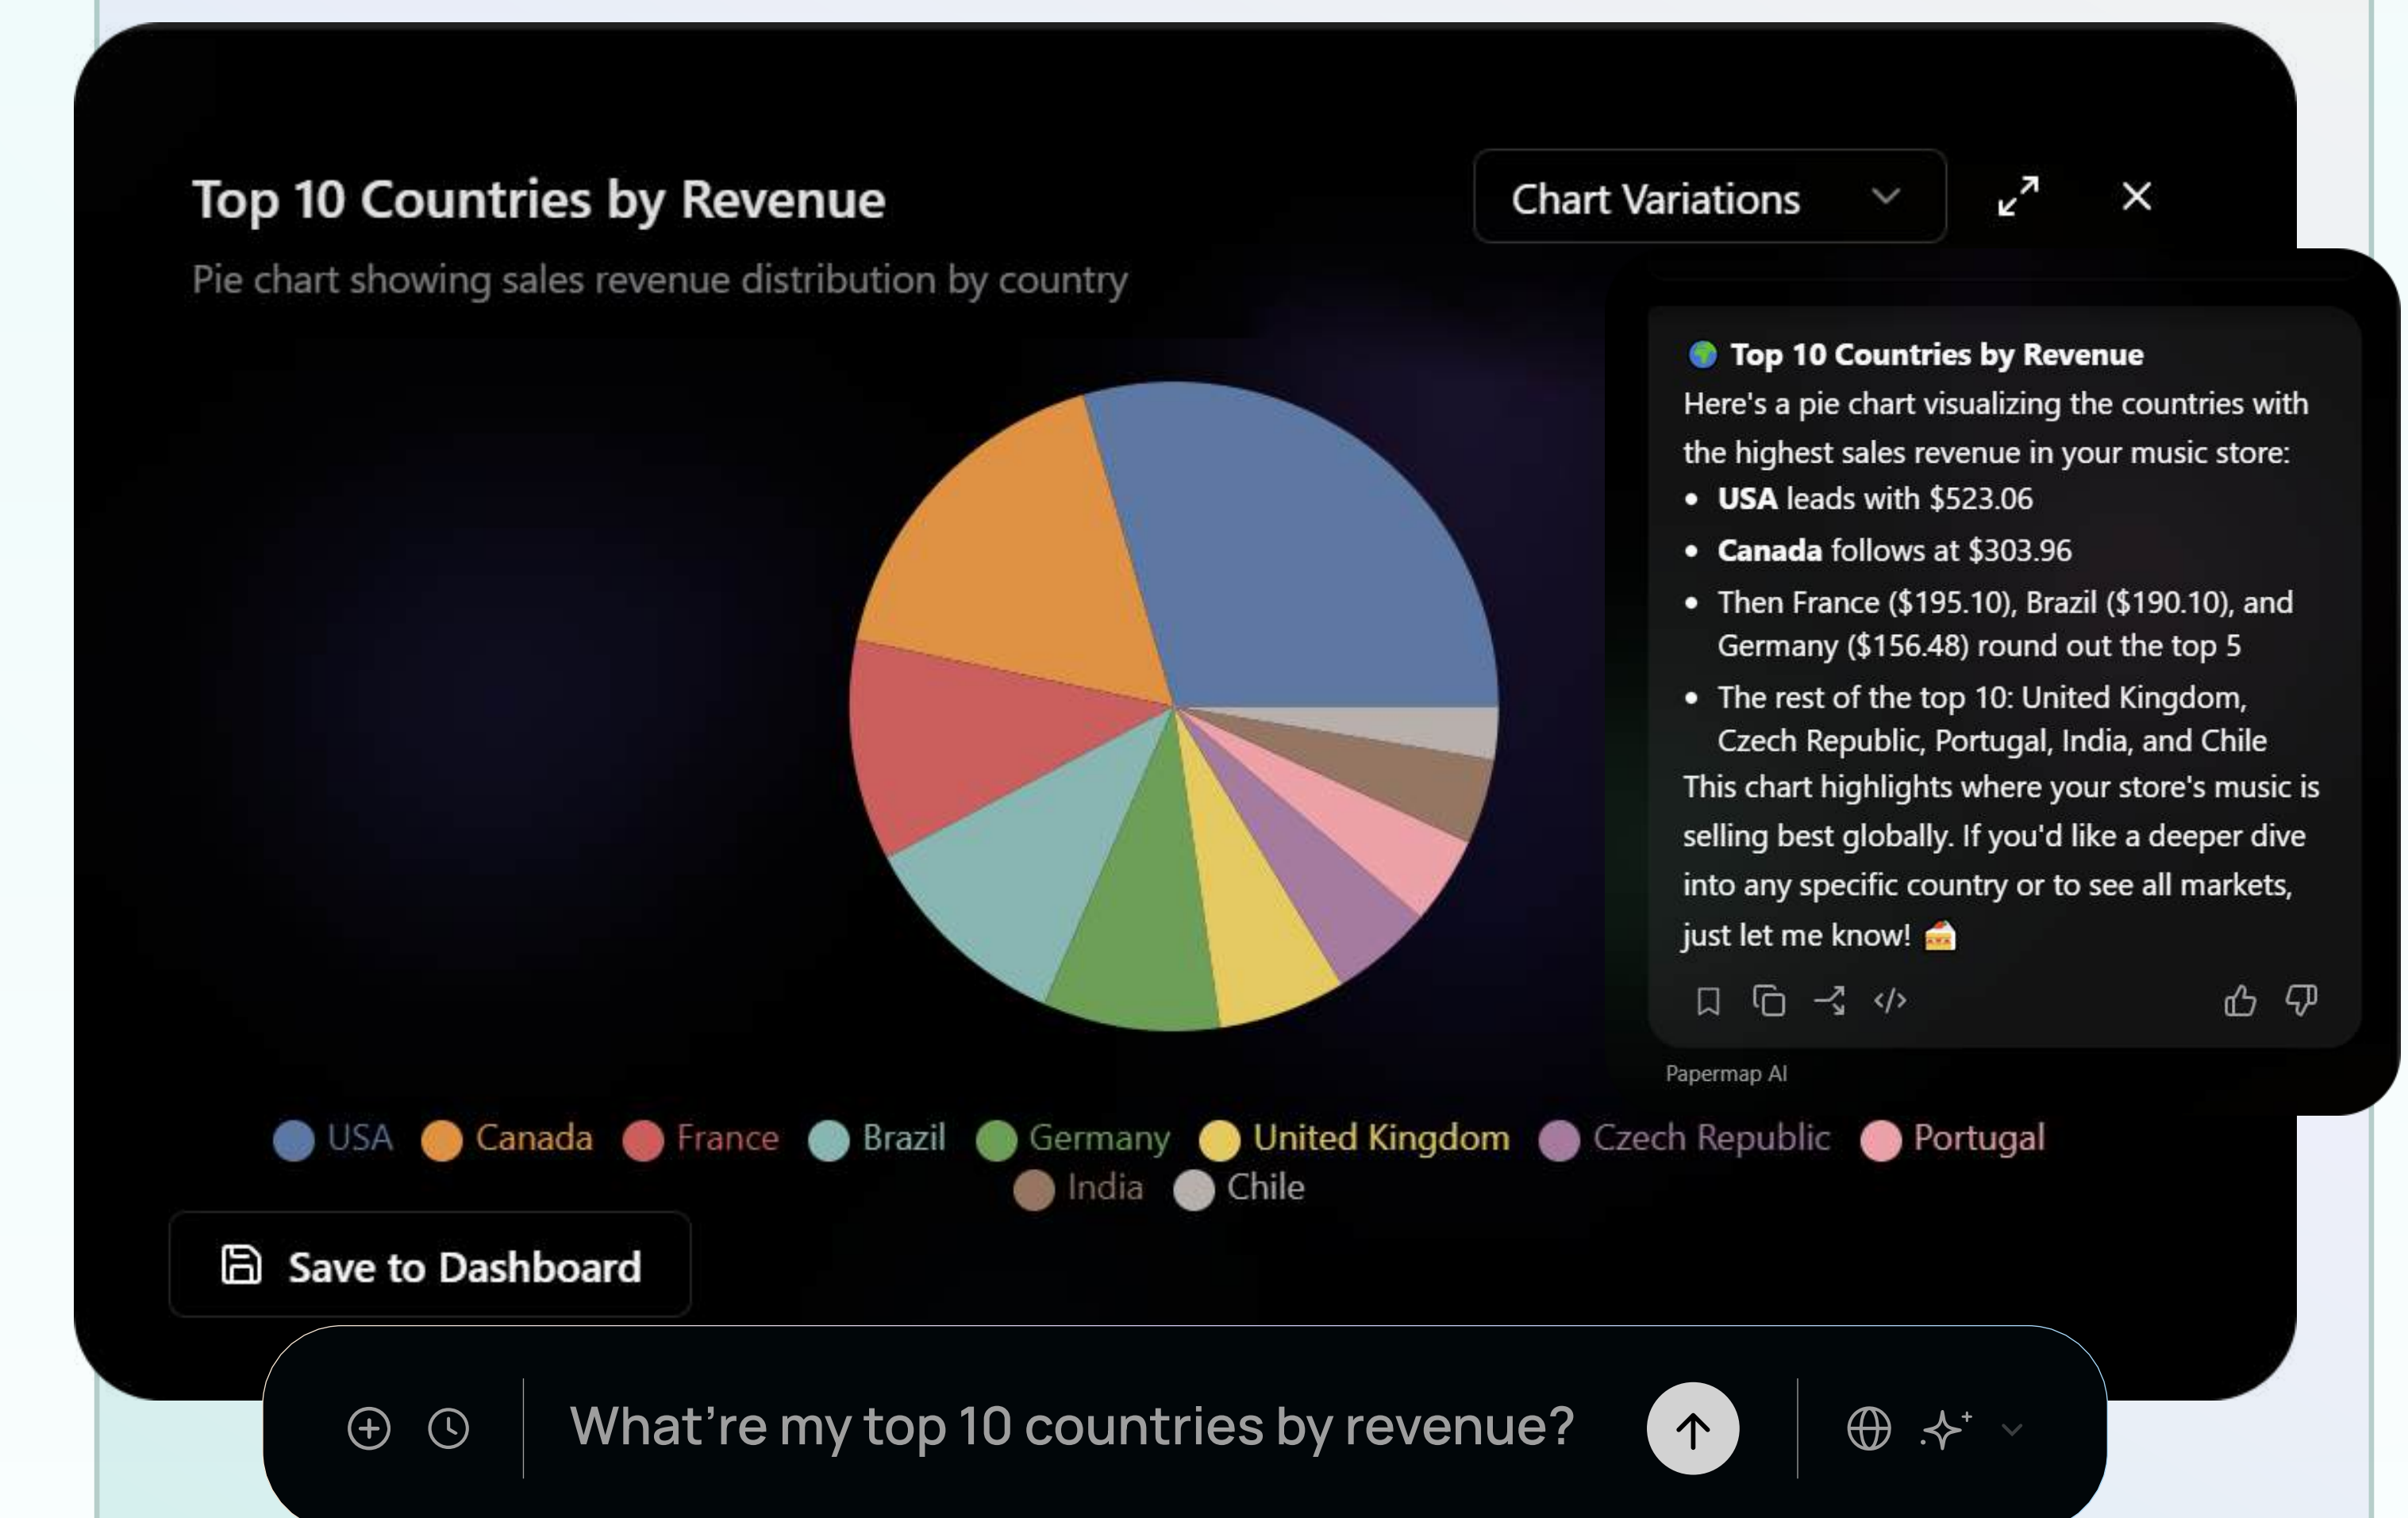

Hi there! What would you like to do today

What're my top 10 countries by revenue?

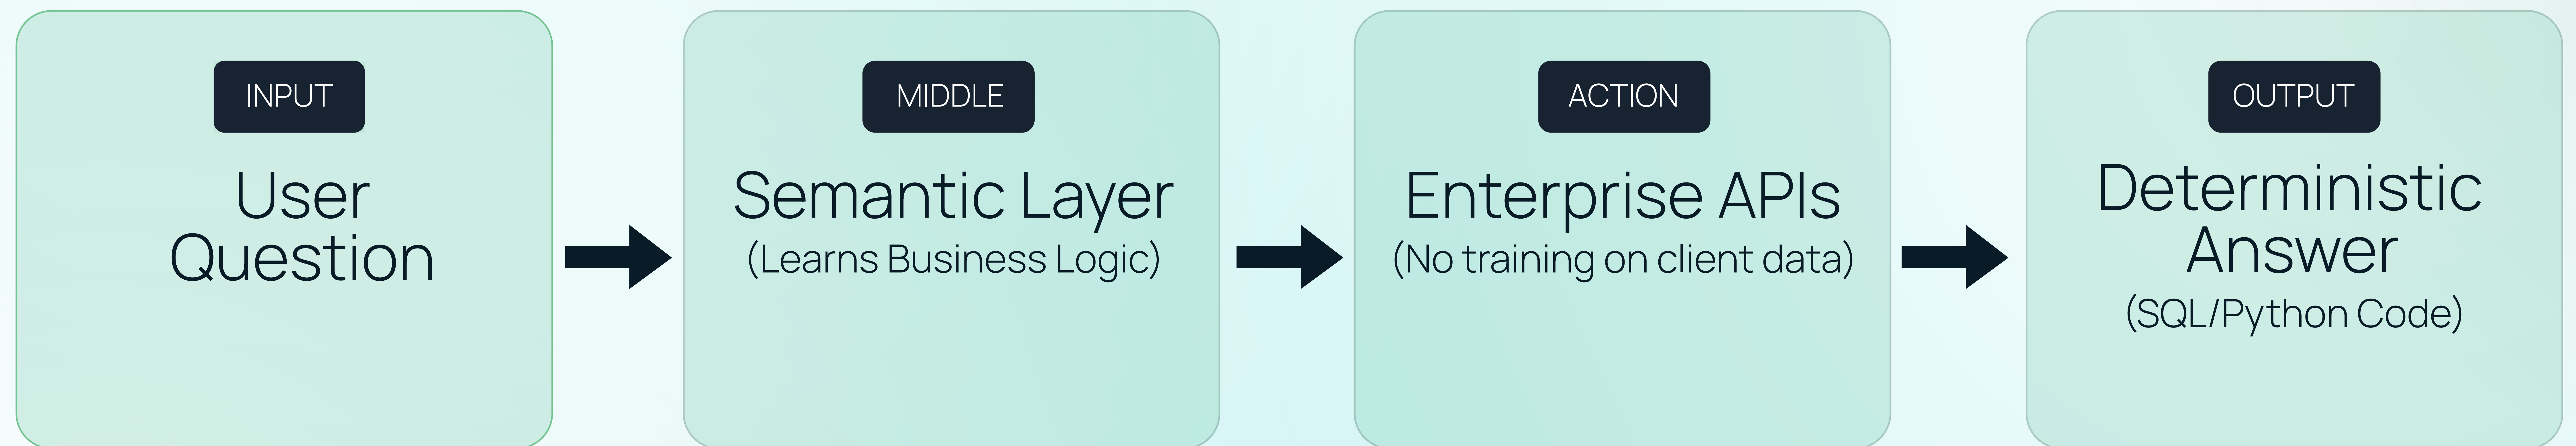

Get

An instant, visual answer
you can act on immediately.

The "Glass Box" Architecture

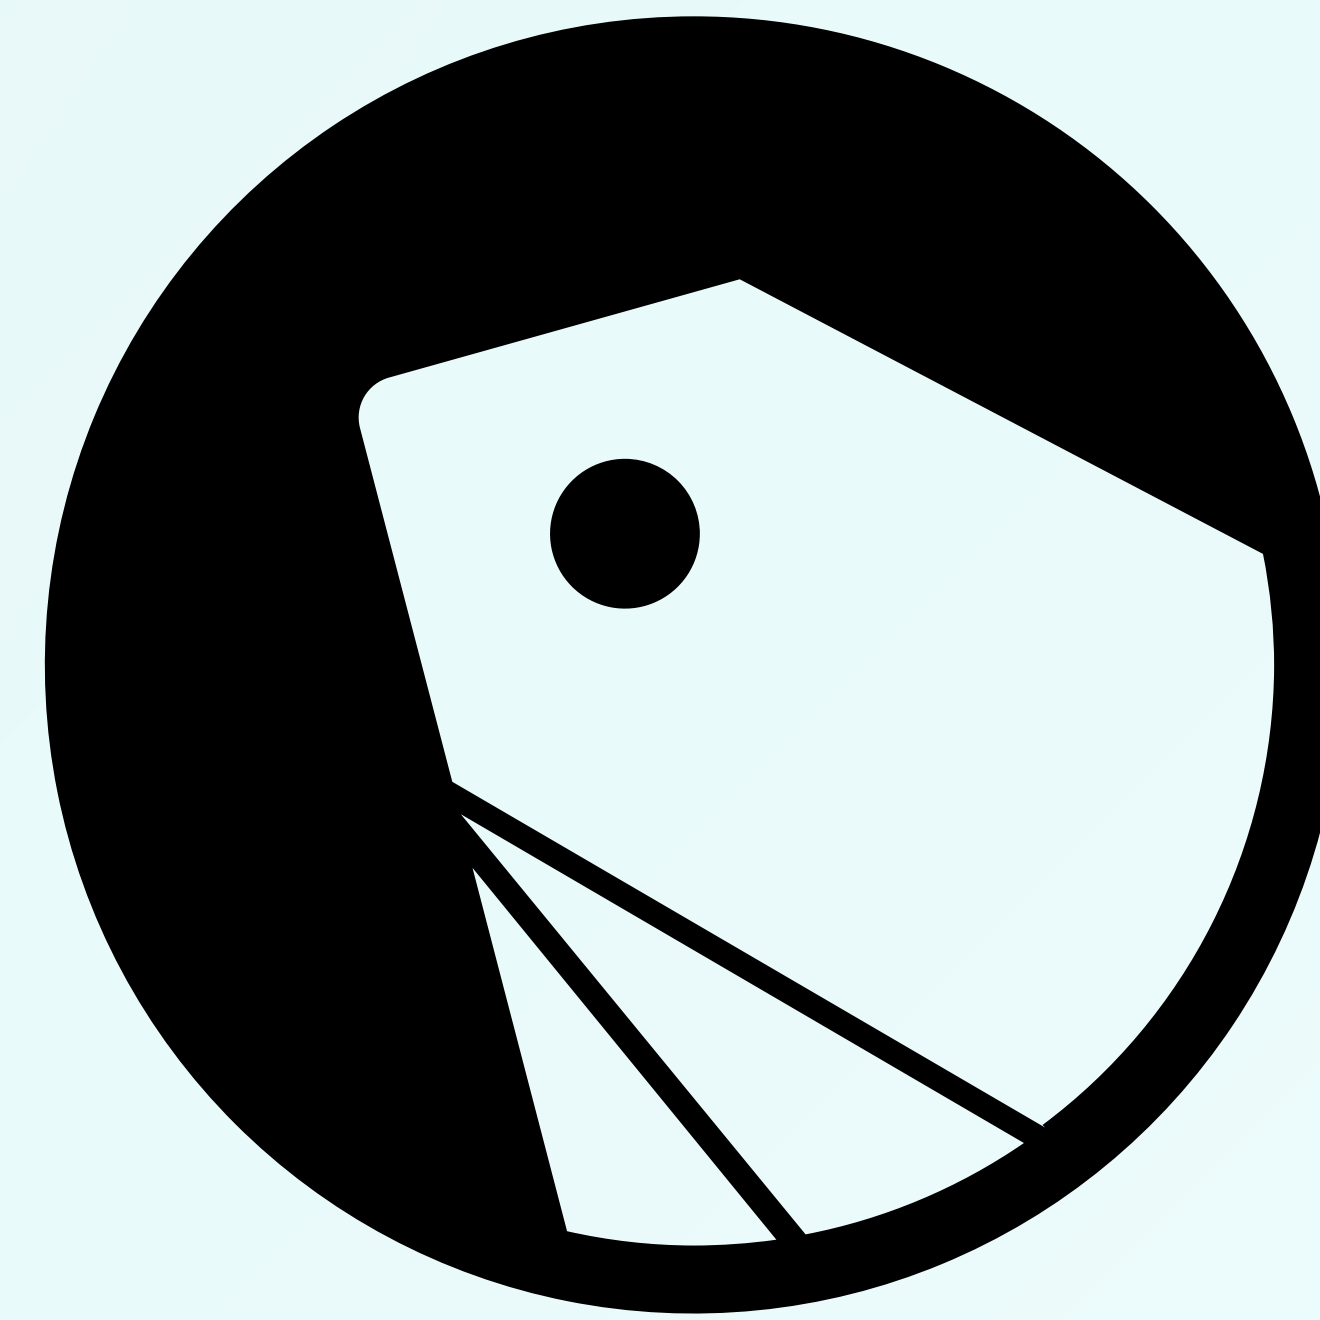

We don't guess. We calculate.

Traction & Validation

GAME 7 (NY Rangers Partner)

Replaced manual stitching with real-time inventory & ad tracking.
