

AZURE DATA PLATFORM IN 2 WEEKS | DPI2

Get the Most Out of Your Azure Cloud

Only 20% of organizations give their employees the tools to make decisions based on analytics.¹ A modern data foundation sets the stage for this enhanced decisioning and innovation with the Azure platform.

Paradigm’s Data Platform in 2 Weeks deployment complements your business strategy, making the most of people, process, and technology to further your cloud-driven digital transformation journey.

Paradigm sets you up for success in rapidly creating and launching a next-gen modern data foundation. Trust you’re building within organizational compliance to speed up development and delivery.

Key Benefits

- Agile and futureproof path to enterprise data strategy
- Lower operating costs
- Critical decisioning via timely insights for quicker time-to-market

Identify the Unique Components of Your Ideal Data Platform

- Ingestion Layer
- Persistence Layer
- Analytics Layer
- Consumption Layer

Lay the Foundation of Your Data Platform on Azure

Reduce cost and effort to deploy, operate, and maintain your data platform

Fast and agile response to business needs, ingesting and employing data as required

All data in one modern platform, standardized, cleansed, and cataloged

Centralized and automated deployments to scale your platform as needed

How We Enable You - The Power of Paradigm

Paradigm enables your cloud business office and enterprise cloud and data architects to deploy your unified modern data platform in Azure. Your platform will leverage a variety of cloud tools including Azure Data Factory, Azure Data Lake Gen2, Azure Databricks or Synapse Analytics, and Power BI.

Project Plan

High-level project implementation roadmap with timelines.

Clear Platform Spend

Visibility into the Azure data platform total cost of ownership.

Business Insights

Power BI reports with data-driven visuals to drive powerful decisioning.

The Power of Paradigm

Paradigm Technology is an award-winning cloud consulting company and leader in cloud, digital, and business transformation, working for 25 years with the Fortune 500. We focus on assisting our clients in meeting their toughest goals: revenue, operations, organization, and risk; delivering and communicating measurable value and impact above all else – that's the Power of Paradigm.
